The Republican Philosophy

I am a Republican because...

I believe the strength of our nation lies with the individual and that each person's dignity, Freedom and responsibility must be honored.

I believe in equal rights, equal justice and equal opportunity for all, regardless of race, creed, sex , age or disability.

I believe in free enterprise and encouraging individual Initiatives that have brought this nation opportunity, economic growth and prosperity.

I believe government must practice fiscal responsibility and allow individuals to keep more of the money they earn.

I believe the proper role of government is to provide the people only these critical functions that cannot be performed by individuals or private organization and the best government is that which governs best.

I believe the most effective, responsible, and responsive government is government closest to the people.

I believe Americans must retain the principles that have made us strong while developing new and innovative ideas to meet the challenges of changing times.

I believe Americans value and should preserve our national strengths and pride while working to extend peace, freedom and human rights throughout the world.

Finally, I believe the Republican Party is the best vehicle for translating these ideals.
