CLEANER**

**STAINLESS STEEL
CLEANER**

ALL PURPOSE CLEANER

The all-purpose cleaner is a **biotechnological product containing enzymes, is easily biodegradable and is designed to clean** tables, doors, counters, walls, glass and mirrors.

Instructions:

Spray generously on the surfaces to be cleaned, scrub using a microfiber cloth, wipe and repeat as needed.

WINDOW AND MIRRORS CLEANER

The window and mirror cleaner is **easily biodegradable and cleans without leaving traces.**

Instructions:

Spray generously on the surfaces to be cleaned, scrub using a microfiber cloth, wipe and repeat as needed.

BATHROOM CLEANER

The bathroom cleaner is a biotechnological product containing non-pathogenic bacteria, it is **easily biodegradable and designed to clean accumulations of soap and scale** in urinals, basins, baths and showers. It is also very efficient for cleaning ceramics and taps.

Instructions:

Spray generously on the surfaces to be cleaned, scrub using a microfiber cloth, wipe and repeat as needed.

CARPET CLEANER

The carpet cleaner is a biotechnological product that contains non-pathogenic bacteria and enzymes, is **easily biodegradable and is designed to clean and remove bloodstains or organic** stains from carpets and fabrics.

Instructions:

Spray generously on the surfaces to be cleaned, scrub using a soft bristle brush and a microfiber cloth. Wipe off excess liquid, allow to dry and repeat if necessary.

CALCIUM CLEANER

The carpet and floor calcium cleaner is a biotechnological product that contains non-pathogenic bacteria, is **easily biodegradable, has a pH-neutral formulation that effectively dissolves calcium without damaging metals**, sealants and floor waxes. It has been created to clean the calcium on carpets and floors.

Instructions:

Spray generously on the surfaces to be cleaned, leave on for a few minutes, rub with a soft bristle brush and a microfiber cloth, wipe off the excess liquid, allow to dry and repeat if necessary.

STAINLESS STEEL CLEANER

The stainless steel cleaner is a biotechnological product that contains non-pathogenic bacteria, is **easily biodegradable and is designed to clean and polish in one step.** It is equally effective for cleaning chrome, ceramics and faucets.

Instructions:

Spray generously on the surfaces to be cleaned, scrub using a microfiber cloth in the direction of the grain, let dry and repeat if necessary.

Partenaire

We are proud to have Guy Laliberté (Cirque du Soleil) as a partner through the One Drop Foundation. Like One Drop, Mr. Laliberté found in SansZo a smart and innovative way to reduce excessive water consumption, water wastage and improve human ecological footprint.
