WHY REAL WOOD IS BETTER

While composite has its place, nothing compares to the **strength, longevity, and timeless beauty** of real hardwood.

UNMATCHED DURABILITY

Ipe is one of the hardest woods in the world. Built to withstand heavy traffic, weather, and time.

NATURALLY BEAUTIFUL

Rich color, unique grain, and a luxury look that only real wood can provide.

FIRE RESISTANT

Ipe has a Class A fire rating – one of the safest decking options available.

LONG-LASTING INVESTMENT

Properly installed, Ipe can last 50–75+ years. It ages gracefully and can be refinished.

NATURAL & SUSTAINABLE

A real, renewable resource with a lower environmental impact over its lifetime.

PREMIUM WOOD. **LASTING LEGACY.**
