

Pacific Bioethics LLC

Overview

Pacific Bioethics LLC provides case-based clinical ethics training and decision-support services for healthcare teams working in complex environments, including behavioral health, correctional healthcare, and the Veterans Health Administration. Training supports real-time decision-making, reduces risk, and strengthens team communication. Focus includes veteran populations with complex mental health conditions, trauma histories, and transitions of care.

Core Competencies

- Decision-making capacity, autonomy, surrogate decision-making
- Behavioral health, crisis care, complex populations
- Mental health ethics and dilemmas
- Interdisciplinary workforce training
