

Pacific Bioethics LLC

California Capability Statement

Overview

Pacific Bioethics LLC provides case-based ethics training and decision-support services for California public-sector healthcare systems, including county health, behavioral health, correctional health, and safety-net providers. Services are designed to support real-time decision-making, reduce risk, and improve care for vulnerable populations.

Contract-Ready Services

- Micro-purchase training sessions (30–90 minutes) for rapid deployment
- Case-based ethics training for clinical and interdisciplinary teams
- Behavioral health ethics and complex decision-making support
- Ethics program development and policy support
- Support for transitions of care and high-risk patient populations

Who We Serve

- LA County Department of Health Services (DHS)
- LA County Department of Mental Health (DMH)
- California Department of Corrections and Rehabilitation (CDCR)
- Department of State Hospitals (DSH)
- Public hospitals and community clinics

Differentiators

- HEC-C certified clinical ethicist
- Experience in federal and public-sector healthcare environments
- Focused on high-risk, behavioral health, and complex care settings
- Practical, case-based training for immediate application
- Flexible delivery aligned with staff schedules
