

107 Drayton St / Warrego Highway

An alternative location for the **Dalby Cultural Centre**

A Sacred Space for Our Future

107 Drayton Street is not just land. It is a space that carries deep metaphysical significance—where Oneness, Nothingness, and Creation converge. As the council considers its future, we must ask: What is this place truly meant to be ?

One (1): The Source of All

The number One represents Oneness, the primordial unity of all things. This is where all potential begins. 107 is a blank canvas—an opportunity to create something of deep cultural significance. It's not empty land; it's a sacred space waiting to become something greater.

Zero (0): The Void of Potential

Zero signifies Nothingness, but also infinite possibility. It's the point of origin, the void from which all creation flows. Just as the universe unfolds from the singular point of creation, 107 can transform into a hub of culture and creativity—an origin point for new beginnings in our town.

Seven (7): The Divine Number of Creation

The number Seven marks the process of differentiation—where the unity of the One unfolds into the many. This is seen in:

The Seven Days of the Week

The Seven Colours of the Rainbow

The Seven Notes of the Musical Scale

The Seven Points of the Compass: N, S, E, W, Up, Down, and inward or the centre.

Each of these reflects the transformation of unity into diversity, the process of becoming. Just as the number 7 brings order and structure to chaos, 107 could be the site of a Cultural Centre—a place where diverse elements come together to create something beautiful and harmonious for our community.

How Can We Honour This Land?

Reject High-Density Housing and or other commercial/ residential development of 107: Our town doesn't need more crowded spaces. We have endless farmland around us for normal residential lots to raise families, and plenty of under utilised commercial property throughout Dalby.

Support a Cultural Center: Imagine a place that reflects the principles of creation: unity, diversity, harmony, and transformation.

Think Big: Let's create something lasting—a space where the potential of 107 can unfold, just as the rainbow unfolds from light, the compass from the centre, and music from the first note.
