

PETITION INSTRUCTIONS

Have people **Clearly fill in Both sheets** please.
(The Legislative Assembly of QLD - Ann Leahy) Sheet &
(The House of Representatives - David Littleproud) sheet.

Once you have 50 names, return to me at 7 John St Dalby, opposite Queensland Rail Yards.

This petition was suggested by David Littleproud in response to Warwick Geisel, the former 19-year Mayor of Dalby. It followed a discussion about what more could be done to bring State and/or Federal scrutiny to Council's community consultation process and transparency. The focus is on the proposed reconstruction *and location* of the community and cultural centre, replacing what was demolished at MyALL 107.

Council boasted of 747 "have your say" survey responses. If Littleproud or Leahy is to get up in front of Parliament and raise the issue, they need to know about a 1000 Petitioners have their back. 888 is a good number which is only about 18 people that can get 50 names. Who do you know.

To keep moral up team up with a buddy. I have found 50% of people will sign without question.

If you know someone with a printer who wants to help, direct them to **107Drayton.com** where they can download these sheets. Rumour has it Council may begin chopping down trees come September. So time is of the essence. Drop off sheets by Tuesday August 26th so we can lodge the Petition before the end of month.

Kindly
