

## About Us

The Henderson Angels are a premier homeless outreach team serving the Henderson homeless population.

The Henderson Angels are dedicated to building relationships and serving the community every Saturday morning. The goal is to establish trust and connections with the community by leading with compassion and friendship. We aim to assist individuals in accessing one of our partnered treatment facilities.

### Our Objective

The Henderson Angel team is determined to bring 1000 homeless residents into treatment while also providing critical limb and lifesaving first-aid medical care.

The Henderson Angels are thankful for their relationship and support from the city of Henderson and Henderson Police Department.

# Saving Lives

We are in the middle of an epidemic, with thousands of Americans overdosing every day on synthetic drugs.

We are grateful for our partnership with SNhD. They provide us with thousands of dollars worth of naloxone. Some of our best work is being done by getting this medication into the population's hands so they are there for administration at the time of crisis.

Our team distributed the narcan that was used to revive one of our friends, "Tony," a regular at BMI Park in downtown Henderson.

## VEGAS STRONGER

**Henderson Angels are a proud partner of Vegas Stronger**

Our partnership with Vegas Stronger enables our friends a greater chance of success. Once their initial rehabilitation treatment is done, Vegas Stronger becomes that vital link to reintegration.

### Angel Packs

Every week, we distribute 40 packs to our friends. These packs contain water, snacks, clean hand towels, sanitary kits, socks, and fresh peanut butter and jelly sandwiches.

# Advocate

One of our primary goals is to provide hope for our homeless friends and to assist them with reintegrating back into society.

One of our Henderson Angel **CARE mentors** is assigned to any person we bring into treatment.

**E**ntry

We let them know they are not on this path to rehabilitation alone. We do our best for them, working alongside their Vegas Stronger appointed case manager.
