Cleaning and Disinfecting Your Facilities

J & R Janitorial Services is now offering Disinfecting Services to your facilities. During this unprecedented time, we have been taking our time and looking at guidelines to provide a service that is highly effective. The CDC recommends usage of a labeled hospital-grade disinfectant with claims against similar pathogens to the coronavirus. While there is currently no product tested against this strain of the coronavirus, we are following all guidelines as provided by the CDC and local authorities.

We have been working tirelessly in finding the proper hospital-grade disinfectant we will be using as well as using proper fog machine, proper gear to assure our safety as well. The CDC encourages cleaning of high-touch commercial surfaces which we will focus of, surfaces such as:

- Kitchen/ Food areas
- Dining rooms
- Restrooms
- Door handles
- Office Spaces
- Service Stations

J & R will also be power washing the business' sidewalk where there is heavy foot traffic with the proper disinfectant as well to have your staff and guest feel safer. We are able to provide service to homes to assure tranquility. Please contact us for any questions you have about this service we are now providing.

Your Service Provider,

J & R Janitorial Services LLC
