## 8" Alternating Pressure Mattress

LVA1066

HCPCS: E0186

The mattress pump is very silent which allow the patient to sleep comfortably as the pressure alternates. It includes a waterproof vinyl that has air pockets that are protected by a layer of comfortable, hygienic material. It is extremely durable and capable of supporting up to 400 pounds. It also has multiple pressure variables that allow you to customize the firmness of the mattress specifications to your needs. Sealed Air pockets alternate periodically to distribute weight and reduce likelihood of pressure sores and bedsores.
