Key Topics throughout the season:

This past winter we completed the Hall Preservation campaign which culminated in the completion of a new roof for the Hall. The improvements thus far for the hall have been a work day to paint trim, new roof, new wiring throughout the hall, and new ceiling fans. A big THANK YOU from the board to the membership who donated to the preservation of the hall. The work done will contribute to the life of Sabino Hall. We raised approximately \$16,000 for the building fund.

The 100th anniversary was cancelled this year as membership has waned. The Board opted to allow next year's leadership to undertake the 100th, dependent on pandemic situation and membership interest.

Significant events this year, the business meeting will hold elections on August 23rd, 2022 to elect a new board. The current board has been together since 2018, and members have offered their resignations. Unfortunately, this past August the President of our board passed away unexpectedly. His leadership over the last four years

has been steadfast and allowed the association forward progress during a very difficult time in our history. His guidance and enthusiasm for the community will be very much missed.
