											Mix 'n Match Total	\$-

(uses data from multiple columns)

*Helpful Hint: Deleting the price from this column will cause an error in the total column, rather than deleting it just enter 0.

** Due to the current market and supply chain issues prices may be temporarily adjusted.

This spreadsheet is for estimating and calculating a flower budget only. Your actual costs will be determined by the flowers you choose, the time of year your wedding takes place and many other factors. It is meant solely as an overview based on average prices. Sales tax is added as required by state law. Delivery and set up charges are not included in the estimator spreadsheet.
