Tracks 15 & 16

Friends Like That Glen Foster

- 1 A long lost friend, just showed up one day
I recognize your face, ya I'm doing okay
You're having a mid-life crisis, what do you expect me to say?
If I could deal with the drama, I might invite you to stay
- Chorus With Friends Like That, who needs enemies?
I've got all the help, I can handle, don't even begin
You build me up, then you bring me down
I'd like to help you out, how did you get in?
- 2 My 42nd cousin, thought he'd look me up
Arrived in me driveway, in his pickup truck
I remember uncle Bob, and his turkey farm
I'm sorry all your neighbours, did you so much harm
- 3 Now a kid I knew, when we were back in school
He used to beat me up, he thought he was cool
He'd give me a punch, then throw my lunch away
Leave me out of the fun, when there were games to play
I used to hate that kid, he made my life miserable
If I could go back then, I'd change a thing or two
But I forgive him now, I don't want to commiserate
Why hold a grudge, there's no good it could do?
- 4 Now my new best friend, invites me out on the town
He's gonna show me a good time, and spread some money around
But I bought all the drinks, I even paid for the meal
He forgot his wallet at home, ya that was some kind of deal

Three Man Band Glen Foster

- 1 Well a cold wind's blowing on an autumn day
Good old boys disappear down the alleyway
Black night can't hide the blues, cool sounds come creeping through
Three Man Band is doing what they love to do
- 2 Night owl, howling at the midnight moon
Grey wolf, growling tones to that toon
People gather when they hear that beat, shimmy, shake and shuffle their feet
Three Man Band is chooglin' on down the street
- Chorus Blue eyed soul is playing on the radio
When the Three Man Band is rocking everybody knows
Electric bass and a rhythm guitar, set of drums and you feel like a star
Three Man Band is putting on another show, here we go
- Bridge Peggy Sue plays a party doll, Mary Lou says Hello to them all
Big Town Boys are diggin' all the prettiest girls
Bobbie Jo boppin' in the hall, Billy Jean just having a ball
Everybody's rockin' all over the world
- 3 My mrs in Mississippi misses me
Nephew in Nebraska needs tickets for three
Sister in St. Louis, son in New Orleans, cousin in California keeps living the dream
Three Man Band is coming to make your scene
