Steve.

Yes. I heard that you accepted a new job in the Marketing area -- I hope this represents the next major step in moving Steve Zecola away from the "regulatory" arena that you left a couple of years ago -- and I am sure that you will be a major contributor to MCI in your new function.

BUT, wherever you are, I will always seek you out as a top notch guy for special assignments (this being an example of one -- and your right, this one probably does go with your new area of responsibility).
