

RAISING OUR STANDARDS

COMMUNICATIONS & BRANDING GUIDELINES

WHAT WE OFFER

Caring for Coastline's visual brand is the responsibility of the communicators at the college. This is a publication of the elements and how-to's that help maintain a consistent, cohesive, and effective visual identity for Coastline College and its entities.

The Coastline College Office of Communications, Public Relations, and Marketing is dedicated to communicating information about the College to both internal and external audiences. The department uses a range of media, community relations, graphic design, and digital media tactics to communicate to a variety of audiences. The Communications staff is here to help let others know about the exceptional work being done at Coastline.

Branding Types

- **COLLEGE BRANDING**

College Branding refers to the visual components that apply across all non-sport & club entities at the College, including fonts, colors, and various graphical elements and treatments.

- **ADMINISTRATIVE BRANDING**

Administrative Branding assets are for the non-academic, non-sport & club entities at the College. Think of this as "Executive Communications".

- **ACADEMIC BRANDING**

Academic Branding elements can be used by colleges, centers, departments, labs, and programs. The assets here help to begin to apply the overall College branding to specific departments on campus.

- **ESPORTS & CLUBS BRANDING**

Sports & Club Branding is solely intended for use by the Esports and Student Clubs Department. The assets here must be used in strict adherence to the brand standards.

BRAND VALUE

Our brand is where our story takes shape.

Brand is more than just a logo. It's an idea or perception that lives in the hearts and minds of people. A brand is the Reputation, Quality, Personality, Experience, Message, and Unique attributes of an organization.

It's the intersection of what we say about ourselves, how we act, what people think of us, and why we're different from other higher education institutions. It's authentic. It inspires and makes the College's contributions and value easy to understand.

By having a strong, unified brand we shape our audience's perception and cultivate a personal connection through the stories we tell.

Let's tell it with pride.

BRAND PLATFORM

We're a distinct part of one of the largest, most industrious, and most diverse counties in the world. Our students, faculty, and staff are part of the fuel that makes this city run.

Dolphins are intelligent, friendly, inclusive, and driven to excel and with award-winning faculty – we're gaining speed. Dolphins like to be free to "surf the waves" in the ocean and Coastline Dolphins like to have the freedom "surf the digital waves" online.

This is what makes Coastline a "College on Your Terms".

We are also a partner committed to civic engagement with our neighboring communities - dolphins only live in communities, always helping each other.

Our positioning statement can be proven by stating facts, using examples, and telling specific stories relating to our three brand pillars: Coastline Strides, Accessibility and Convenience, and our Innovative mentality.

VOICE AND TONE

The Coastline voice is fun, innovative and authentic. We're efficient with our copy. We choose to use shorter, more direct words to make our points clearly and succinctly. Why? Our students are busy! Our stories and accomplishments speak volumes on their own. We just need to tell them.

Our brand positioning statement is informed by the following tonal words that reflect the College's personality:

- Innovative
- User-friendly
- Bold
- Flexible
- Direct
- Aspirational

Use these words to guide you when developing communication pieces. Not all the tone words are used in every piece. They can be dialed up or dialed down depending on your audience and message. All Coastline communications should reflect at least two of these tone words.

VISUAL IDENTITY

OUR TEAM HAS DEVELOPED GUIDELINES THAT SHAPE OUR REPUTATION AND SHOWCASE OUR BOLDNESS AND ORIGINALITY WITH IMPACTFUL LOGOS, A UNIFIED COLOR SCHEME, AND ASPIRATIONAL GRAPHICS AND IMAGES.

The Unexpected Is Engaging—Embrace It

Surprising or unusual combinations—such as the intersection of science and art—create intrigue; they're great ways to engage an audience and bring to life Coastline's interconnected culture. Example: This homepage forces the reader to consider the Environmental Sciences in a new light.

IN BODY COPY

Weaving the Brand into Your Materials

This PROGRAM copy explains COASTLINE's commitment to CREATIVE collaboration. Similar copy can easily be woven into many communications throughout the COLLEGE without overshadowing a different primary message.

SECONDARY LOGO

The Primary Logo is to be used in every instance where a full color logo is needed. However the Secondary Logo can be used in **extremely rare and demanding circumstances.**

Example 1

Background is too dark or similar and would hide the "Coastline College" Word Logo in it's intended Pantone 2955C color. This would be an acceptable circumstance to use the Secondary Logo instead of the Primary Logo.

SECONDARY LOGO COLOR GUIDE

The Secondary Logo can only be used in **extremely rare and demanding circumstances.**

Coastline College word logo uses Pantone 298C in the Secondary Logo's text.

(This lighter blue pantone helps the text portion to stay visible when placed on top of dark colors)

COASTLINE PROGRAM LOGOS

BREAKING UP IS HARD TO DO...NOT REALLY

The Coastline College logo's primary purpose is to be represented with the word logo and its accompanying crest. However, in some instances, as long as the rules and suggestions are followed, it can be separated into 2 different sections. This provides flexibility and adaptability depending on the circumstances.

When breaking up the Coastline College logo, the rules are simple.

-The word logo can be used by itself.

-The Crest can't be used by itself.

If all that exists on a page to represent Coastline College is the crest itself, the audience will never associate the two. They will either see the crest as an icon, a shield or a ding bat with no association unto it.

In this presentation slide, the Crest in Coastline College's logo has been omitted and instead only the word logo is being used. This is acceptable.

In this web page, the Crest in Coastline College's logo has been omitted and instead only the word logo is being used. This is acceptable.

In this presentation slide, the Crest in Coastline College's logo has been separated. The user still wanted to include the Crest as an accent somewhere on the page. This is acceptable.

I'M SCARED. I CAN'T DO THIS BY MYSELF!

If you would like to use the crest by itself, make sure the word logo is also somewhere in the vicinity.

IT'S OK CREST. I'M JUST OVER HERE. I NEEDED SOME SPACE.

CORRECT PRIMARY LOGO USAGE

Logo contains enough white space all around.

Correct logo has been chosen for background that uses mid-tone colors.

White logo has been used on black background.

Primary logo with secondary colors has been used to help contrast typeface from background.

Word logo contains enough white space all around.

Word logo in black has been used to avoid blending into the background.

White word logo has been used on black background.

White logo has been used on darker background.

Logo has been separated correctly. Crest is still being used in the same viewing area.

Word logo has been used instead of crest logo in order to match the height restrictions of the logo sponsor page.

White logo has been used on a dark background to avoid blending in.

Primary logo has been used on top of a light background to ensure contrast.

INCORRECT PRIMARY LOGO USAGE

DO NOT change the position of logo elements.

DO NOT change relative sizes of the logo elements.

DO NOT change the colors of the logo.

DO NOT place the primary logo on a similar colored background.

DO NOT tilt the logo.

DO NOT change the size of the font.

DO NOT alter the elements in the logo.

DO NOT remove any elements of the logo.

DO NOT place logo on patterned background.

DO NOT place a white logo on a pale background.

DO NOT cut off any elements of the logo.

DO NOT place a drop shadow on the logo.

A Grayscale version of the Dolphin Crest Logo is available for black and white publications.

DOLPHIN FULL BODY SIDE

A Grayscale version of the Dolphin is also available.

Alternate dolphin artwork has been created with promotional materials in mind, that focus on a younger target audience.

The dolphin is posed differently than the Coastline Dolphin Crest Logo. No longer upright, the dolphin is launching in a side view. Artwork encourages a playful attitude.

This artwork is perfect for promotional items such as Stickers, Labels, Kids T-shirts, Coloring Books, Temporary Tattoos, and Shoestring Bags.

Promotional materials must follow Coastline's branding guidelines.

Coastline College Word Logo should be included somewhere in the area.
