

WorldSafe

# RaaS RESILIENCY as-a SERVICE

Security **resiliency** includes *physical* and *cybersecurity* measures to ensure an organization can withstand, respond to, and recover from threats in an **annualized commitment** to safeguard resiliency planning for organizations.

**RaaS (Resiliency-as-a-Service)** WorldSafe's flagship program offers organizations continuous support and expertise to maintain operational resiliency, respond to crises, and recover from disruptions. Through a flexible subscription model, clients benefit from tailored strategies, expert advice, and proactive risk management without needing a dedicated in-house team.

- ✓ Annual Security Assessment
- ✓ Resilience & Safety Product Audits
- ✓ Employee and Staff Training
- ✓ Incident Detection and Response
- ✓ Crisis Response Support
- ✓ Business Continuity Plans
- ✓ Fractional Security Officer (CSO)
- ✓ Risk Monitoring
