Increasing Measure Project Consulting LLC brings over 16 years of experience leading complex project management initiatives across aviation and aerospace, engineering and manufacturing, IT, and healthcare.

CORE COMPETENCIES

- Program and Project Management
- Program Support Services
- Project Management Development, Training, and Coaching
- Earned Value Management Development, Training, Coaching
- Business Process Management and Improvement

DIFFERENTIATORS

- Executive team has 16 years of project management experience
- Executive team has extensive training and coaching experience as a graduate school professor of business and project management
- EVM, PM and Risk Management expertise: Earned Value Management and project management tools and methods expertise

Previous Experience:

- IT Transformation Projects—Directed the establishment of Project Management Offices, delivering structure, training, and related governance processes, ensuring adherence to federal regulations including the Sarbanes-Oxley Act. Managed enterprise portfolios worth \$100M+ (Rentokil Terminix, Lockheed-Martin, Kindred)
- Portfolio evaluation and revitalization—Collaborated with executive leadership within service industry corporation to evaluate and streamline their project portfolio, successfully aligning initiatives with strategic priorities—resulting in an 80% reduction in portfolio size and a renewed focus on high-impact, value-generating efforts.
- Aviation & Aerospace Projects—Delivered governance and frameworks for project tracking, prioritization, resource management, and earned value management for operations ranging from \$20M annually to \$8B IDIQ contracts (Lockheed-Martin).
- Healthcare Transformation Project—Delivered finished product and enhancements for new end to end patient intake, management, and billing software to 72 hospitals across the continental United States within a 12-month period (Kindred Healthcare)
