Increasing Measure Project Consulting LLC is a Veteran-Owned Small Business (VOSB) specializing in program and project management, governance, risk management, and process improvement. With 16+ years of experience across government and industry, we help organizations deliver complex initiatives, strengthen oversight, and align execution with strategic priorities.

We partner with clients to support enterprise IT and business transformation efforts by providing PMO leadership, governance frameworks, and risk-informed delivery support.

**CORE COMPETENCIES**

- Program & Project Management (Enterprise / IT Initiatives)
- PMO Design, Implementation & Governance
- Governance, Risk & Compliance (GRC) Support
- Portfolio Management & Strategic Alignment
- Business Process Improvement & Operational Efficiency
- Business Continuity & Resilience Planning
- Earned Value Management (EVM) Implementation & Oversight

**DIFFERENTIATORS**

- **VOSB-certified small business** aligned with federal and SLED contracting goals
- Executive team has **16+ years leading enterprise programs** across IT, healthcare, aerospace, and government environments
- **Proven PMO leadership experience**, including stand-up and transformation of enterprise PMOs
- **Risk-informed delivery approach**, integrating governance, compliance, and performance management
- **Executive-level training and coaching experience**, including graduate-level instruction in project management and business disciplines

**Relevant Experience:**

- **Enterprise PMO & IT Transformation Leadership**  
Led the design and implementation of Project Management Offices (PMOs) supporting enterprise IT initiatives, establishing governance frameworks, reporting structures, and compliance alignment (including SOX). Improved portfolio alignment and reduced non-strategic initiatives by 80%. Managed portfolios exceeding \$100M. (Rentokil Terminix, Lockheed-Martin, Kindred)
- **Large-Scale Program Governance (Aerospace & Defense)**  
Delivered governance, prioritization, and performance management frameworks supporting programs ranging from \$20M annually to \$8B IDIQ environments, including earned value management (EVM) implementation.
- **Healthcare Systems Transformation**  
Supported nationwide rollout of enterprise healthcare systems across 72 hospitals, delivering end-to-end project coordination, stakeholder alignment, and operational readiness within a 12-month timeline. (Kindred)

**TEAMING RELEVANCE FOR IT CONSULTING RFPs**

- Experience supporting enterprise IT transformation initiatives
- Strong alignment with program governance, risk management, and compliance requirements
- Proven ability to support multi-stakeholder environments across public and private sectors

- Capable of augmenting prime contractors with PMO leadership, governance oversight, and delivery assurance support
