 - Hyrdovac Slurry Disposal (Non – Hazardous)

Septic and Pumping

- Equipment:
 - Vacuum Truck
 - Semi Vac
 - Vac and Pup
 - Hydrovac Truck
 - Combo Vac Truck
 - Potable Water Truck
 - Combo Potty Truck

Septic and Pumping

Hydrovac and Hydro Testing Services

- We use high pressure water to break down materials that are then vacuumed into a tank to be disposed of. From daylighting existing utilities, to the removal of contaminated soils, hydrovacating is the safest and most effective form of excavating
- Hydro Testing (also known as Hydrostatic Testing) is required in all piping and vessel construction to certify all pressurized systems from leaking and/or rupture under engineered maximum operating pressures. NAEQS is now proud to start offering this service with one of the most experienced testers in the industry.

Hydrovac and Hydro Testing Services

- Equipment:
 - International Mud Van
 - 4x Axle Winch Tractor/50T Scissor Neck trailer
 - Water Trucks
 - 2x Vermeer MX30 Mud Mixing Systems
 - Vermeer MX30 Mud Mixing Systems
 - Takeuchi TL12V2 Skid Steer & TB2650 Excavator
 - Tandem Clean Hot Oiler
 - Nvision Data Recorders
 - Chart Recorders
 - Industrial Cleaning Tools

Hydrovac and Hydro Testing Services

Civil Works and Construction
