- Wash your hands before touching your piercing.
- Clean with sterile saline solution 2–3 times daily.
- Do not twist, rotate, or play with jewelry.
- Gently remove softened crusting only when cleaning.
- Pat dry with a clean paper towel.
- Avoid pools, hot tubs, lakes, oceans, and soaking until healed.
- Do not use alcohol, peroxide, ointments, or harsh soaps.
- Avoid sleeping directly on the piercing.
- Do not change jewelry until approved by your piercer.
- Mild redness, swelling, and tenderness are normal during healing.

If you experience severe pain, excessive swelling, fever, or signs of infection, seek medical attention.
