

Certified Extermination Services LLC

“Experience and reliability make a difference”

Seasonal Service Packages and Pricing Information

Standard Tri-Annual Service Package: \$255.00 annually

Most basic service package that we offer. This package includes three seasonal barrier treatments to be performed spring, summer and fall. All exterior barrier treatments are performed using a power sprayer rig with insecticide being applied directly to the foundation and around all first floor windows. Includes interior service at no additional cost as customer requires it. Includes treatment for all general insects and mice. No additional charge for follow up services or callbacks.

Tri-Annual Service Package with Wasp Treatment: \$330.00 annually

A good package for those who have a history of stinging insect problems on their property. Includes all benefits of standard package with benefit of year round warranty for stinging insects anywhere on the property. A preventative wasp treatment will be performed with the summer service. Preventative wasp spray involves spraying product under soffit, fascia and eaves to deter wasps from making nests. Includes warranty service for any stinging insect nest anywhere on the property. Includes removal of all old nests on property at time of service. Includes treatment of carpenter bees as well.

Tri-Annual Service Package with Mosquito: Prices vary on lot size

A good package for customers who want a lot of value in a comprehensive pest control package. Includes all the benefits of standard package with seasonally applied mosquito treatments at a discounted rate. Mosquito package can be purchased with or without the wasp proofing service based upon the customer's needs. Pricing for standard package is the same; however mosquito services will be quoted based upon lot size.

Rodent Control Maintenance Packages: \$185.00 annually

A great package for those customers that have a history of rodent activity but don't need general insect control. Includes inspection and service of interior rodent control devices in spring, fall and winter. Includes sealing up of all possible entry points on exterior of home with initial service visit. Additional buildings such as barns, stables and separate residences on property will be priced additionally at technician's discretion. Customer has the option of purchasing exterior rodent control devices that can be serviced at no additional charge.

General Pests Covered Under Tri-Annual Service Packages:

All general pest packages include service and inspection for ants, mice, cockroaches, spiders, flies, silverfish, earwigs, beetles, crickets, millipedes, centipedes, carpenter ants, boxelder bugs, stink bugs and various infestations of stored product pests. This is not an expansive list but are the most commonly treated pests in structures. All purchases made with Certified Extermination Services LLC do not require a contract agreement. We believe that honest and quality service is what keeps customer's business. Customers may cancel services at any time for any reason; however we would appreciate the courtesy of notice if necessary.

**This is a package pricing list for the majority of residences. Additional buildings or abnormally large houses may involve a variation from standard pricing. All packages can be tailored individually to the customer's needs. Customers can add/ remove or change packages based upon budget and pest control needs. Due to the sheer number and types of pests packages exclude the treatment of termites, rats, fleas, bed bugs, carpet beetles or abnormally severe German cockroach infestations. Please see single service pricing for excluded pests.*
