Your Learning Journey

LEARN • PRACTICE • IMPROVE

A structured approach designed to keep you practicing, not just watching.

01	Learn Understand SQL concepts step by step, starting from the fundamentals.
02	Practice Solve SQL queries regularly and strengthen your problem-solving skills.
03	Revise Use detailed notes and class recordings whenever you need revision.
04	Get Guidance Receive daily guidance and support while working through practice.
05	Build Work on a portfolio project and demonstrate your SQL skills.

Who Is This Course For?

- Beginners who want to learn SQL from the basics
- Students and freshers building data skills
- Learners preparing for Data Analytics roles
- Anyone who wants structured practice and guidance

Why DataPencil?

We focus on learning by doing. The course combines live instruction with daily practice, query solving, revision resources, class recordings, guidance and a portfolio project so that your learning continues beyond the classroom.
