

## Example Certification Consultee Evaluation Form

This evaluation form is provided to Approved Consultants and Consultants in Training to support their evaluation of consultees working towards Certification. EMDRIA recommends that Consultants utilize this measure (or an equivalent tool) to assess a consultee's knowledge and skills in providing EMDR therapy and to identify areas to strengthen prior to recommending for the Certification credential.

No minimum/passing score is indicated due to the subjective nature of such an evaluation; however, the items below reflect content essential to the Certification process. Thus, if a consultee has not demonstrated the skill or practice described in each item, the consultant has reason to require that it be adequately demonstrated (in a manner determined by the Approved Consultant) prior to recommending for Certification.
