Subject: supporting local libraries

Dear Willing Workers,

I am so moved by the thoughtfulness and generosity of the Willing Workers and their concern for the local libraries.

I am especially grateful for the donation of the face masks. We ask all patrons to wear masks when at the library and encourage people to take them home for their family members.

This is part of our effort to educate and inform patrons about ways of preventing the spread of the virus. Thank you for helping us in this effort.

I look forward to a day when Abbie Greenleaf Library can host a get-together (without face masks!) of the Willing Workers and celebrate the end to these trying times.

Until then, stay safe,

Ann
