

Press Release Clerkenwell Design Week

Vidato Interiors UK are extremely excited to be attending Clerkenwell Design Week again for 2025 and highlighting our bespoke furniture manufacturing capabilities for the contract sector.

This years' exhibition highlights our partnerships and collaborations with key designers and brands we have within our remit for manufacturing.

In collaboration with innovative acoustic design studio *acou.space*, **Vidato** will showcase a series of biophilic sound-absorbing products that bring the natural world into interior spaces.

On display will be three standout designs: suspended baffles, acoustic wall panels and modular room dividers. Most of the products are made from 100% British and regenerative wool and are designed by the *acou.space* team, based in Leeds. We're proud to support a local brand bringing fresh thinking to acoustic design with smart ideas and strong visual appeal.

Vidato will also show upholstery brand *Hayvenhurst* which will showcase their Sustainable and Circular upholstery products. The brand, owned and founded by Robert Milder and Jackie Jackson will demonstrate their circular luxury furniture in form of their No. 1 love seat which is crafted from entirely recycled materials.

They specialise in crafting furniture which is as good for the environment as it is eye catching and are fresh from Salone del Mobile in Milan.

We hope you can pop along to stand P6 in Projects during Clerkenwell Design Week 20th – 22nd May 2025 to discuss our capabilities, and look forward to seeing you there.
