

LITTLE GHOST

By Carbon Harry

Intro

I won't close my eyes
If you're by my side

I'm feeling the fate and I don't want to stay here
Not really scared, scared of you

Turn off the light and I start to shiver
Your little smile makes me quiver

Float, Away
HEY!
HEY!
HEY!
Little ghost!

Walk through the door and you screech out boo!
You're thinking I'm scared but it's really just you

Floating a round and haunting my dreams
You try to scare me but I just don't scream

Float Away,
HEY!
HEY!
HEY!
Little ghost!

Interlude

I won't close my eyes
If you're by my side

I won't close my eyes
If you're by my side

I won't close my eyes
If you're by my side

I won't close my eyes
If you're by my side

I'm feeling the fate and I don't want to stay here
I'm feeling the fate and I don't want to stay

I'm feeling the fate and I don't want to stay here
I'm feeling the fate and I don't want to stay

Float Away,
HEY!
HEY!
HEY!
Little ghost!

Little ghost!

LITTLE GHOST!

Float Away,
HEY!
HEY!
HEY!
Little ghost!
