

In Dreams

By Carbon Harry

Impossible as it may seem to be
I saw you last night in my dreams

You were floating a way in outer space
And I couldn't reach you

In dreams
In dreams

I saw something in your eyes
It sparkled like diamonds in the skies

Tangled up in your blues I start to sing
but you couldn't hear me

In dreams
In dreams

In dreams
In dreams

Interlude

In dreams
In dreams

In dreams
In dreams

I woke up and everything was gone
Washed away by the early dawn

I'll see you again someday...
In dreams
