

## **THINK ABOUT IT**

By Carbon Harry

I got a sweater I like to wear  
It gets so warm cause it's made of llama hair  
I start to sweat every time I wear it  
So I'm a sweater too.

When you really think about it  
You are spinning when you're standing still  
Try not to think about it  
It'll melt your brain.

When you really think about it  
There's more land than water underground  
Try not to think about it  
You will go insane.

Got a drink on a summer day  
Ice water to chase the heat away  
The ice cubes they start to melt  
And float in their own blood.

When you really think about it  
Snails have teeth but they're inside their guts  
Try not to think about it  
It'll melt your brain.

When you really think about it  
The stars we see might already be gone  
Try not to think about it  
You will go insane.

Little snail,  
Slowly, slowly,  
Climbs Mount Fuji.
