

SURFACE OF THE WORLD

By Carbon Harry

I am the one who built the surface of the world
I am the one who built the surface of the world

Is there any body out there to lend me a hand
Is there anybody out there to rock with my band

'Been thinkin' about it
Every day
'Been thinkin' about it
Every way
I've been thinking about it

Every day

Solo

Been thinkin' about it
Every day
'Been thinkin' about it
Every way
I've been thinking about it

Every day

I am the one	
I am the one	
I am the one	
I am the one	
I am the one	Is there any body out there
I am the one	out there
I am the one	
I am the one	Is there any body out there
I am the one	out there
I am the one	
I am the one	Is there any body out there
I am the one	out there
