

Accutinter 7000HS

Best for: High-volume hardware retailers and paint stores

The large canisters in the Accutinter 7000HS mean less frequent colorant refills, and higher efficiency in your paint department. With higher speed and a stainless steel shelf for queuing, it easily accommodates large orders.

“Automatic dispensers reduce the human error associated with manual tinting systems, and improve accuracy... With the AT7000, we have had zero mistints.”

- Leading Paint Dealer

KEY BENEFITS

CONTAINER QUEING

Easy-to-operate shelf and built-in stage to hold multiple containers.

SPEED

4-channel simultaneous dispensing allows you to quickly and efficiently service your customers!

ACCURACY, REPEATABILITY & RELIABILITY

Pump technology sets the standard for accuracy, repeatability, and reliability, ensuring that you provide customers with the right color every time.

ZERO/LOW-VOC COMPATIBILITY

DVX pump technology, combined with an automatic, air-tight nozzle closer, make the AT7000 compatible with Zero/Low-VOC colorants.

SELF SERVICEABILITY

A modular canister design and self-service tools, including step-by-step videos, help maximize uptime and greatly reduce the need for on-site service.

One-of-a-Kind Pump Technology

DVX® pump technology puts Accutinter dispensers head and shoulders above the rest:

- Robust construction eliminates component wear
- Valveless design eliminates need for annual calibration, and alleviates need for maintenance
- State-of-the-art electronics provide unmatched speed
- Builds on IDEX experience in designing durable and accurate pumps for health, fire, rescue applications
