1. Safety Information

Review this owner's manual and read all warning labels on the machine prior to use.

The three main safety notifications used in this manual and on the warning labels are **WARNING**, **CAUTION** and **NOTICE**. They have specific meanings and indicate the potential

	<p>"WARNING!" indicates a hazardous situation, which, if not avoided, could result in death or serious injury. These serious injuries could include permanent loss of function or significant disfigurement, disability, considerable pain and suffering, amputations, severe burns, and loss or impairment of vision or hearing. Take all necessary precautions to avoid unnecessary</p>
	<p>"CAUTION!" indicates a hazardous situation, which, if not avoided, could result in minor or moderate injury.</p>
	<p>"NOTICE" indicates practices that do not involve physical injury but may damage the machine.</p>

Safety Information, Continued..

1.2 Safety Precaution Summary

WARNING!

-  Be sure that the remote power switch is installed by a qualified electrician. Refer to local codes for proper placement of the remote power switch.
-  Review this owner's manual before installing or operating.
-  The machine must be properly grounded prior to use. In the case of an electrical short circuit, grounding reduces the risk of electric shock by providing an escape wire for the electric current.
-  Check with a qualified electrician if you don't completely understand these grounding instructions, or if you are not sure whether the machine is properly grounded.
-  Follow the lock-out/tag-out procedures of your company.
-  Do not open the door until the machine comes to a complete stop.
-  Review the product label, Material Safety Data Sheet, and HMIS rating of materials prior to mixing to determine potential hazards.
-  **WARNING: This product may expose you to chemicals including DEHP, which is known to the State of California to cause cancer. For more information, go to www.P65Warnings.com.**

CAUTION!

-  Keep the work area free of clutter and electrical cords.
-  Avoid extension cords. To minimize the risk of improper electrical grounding, extension cords are not recommended. If an extension cord is unavoidable, consult a qualified electrician to determine what type of extension cord will satisfy the grounding, current capacity, and other requirements of the particular situation.
-  Use the proper power source. Refer to the machine data plate on the right side panel or the section 2.1, Specifications, in this manual.
-  DO NOT disable the limit switch. This switch interrupts power when the mixer door is opened.
-  Keep customers away from the work area. This machine should be used only by properly trained individuals.
-  Clamp the can carefully to ensure that it is held securely during the mixing cycle.

2. Introduction

2.1 Application

Congratulations on your purchase of the 05025 Gyro Mixer. This machine is designed to accommodate standard five-gallon plastic or metal pails weighing up to 125 lb. (45.3 kg).

Understand your machine's features and proper operation to take full advantage of its capabilities.

Read this entire manual completely before operating the machine. Practice installing and removing a pail before mixing for the first time.

An optional Riser Leg Kit is available for additional height adjustments. Please see section 9, Ordering, for additional information.

Keep this manual for future reference.

Always follow all safety instructions!

2.2 Specifications

Unit Size: **W** 35 in (89 cm) **D** 34 in. (86.4 cm)
H 46.5 in (118 cm)

Weight: 440 lb. (199.6 kg)

Electric Service: 110 V 60 Hz

Capacity: 125 lb. (45.3 kg)

Sizes Mixed: 5 gal. (19 L)

Load Height: 13 in. (33 cm) to 16 in. (41cm)

3. Installation

3.1 Prepare for Use

WARNING! Be sure that the remote power switch is installed by a qualified electrician. Refer to local codes for proper placement of the remote power switch.

IMPORTANT: Before attempting to operate the machine:

1. Remove all packaging material.
2. Position the machine on a firm, level surface.
3. Follow the electrical connection instructions described in Section 1.2, Safety Precaution Summary.

3.2 Verify the Machine is Level

1. Clamp a 5-gallon pail in the machine as as per the instructions in Section 4.2, install a Pail and Mix.
2. Turn the timer to start the machine.
3. Adjust any feet under which a piece of paper can fit.
 - A. Loosen the upper jam nut **(A)**.
 - B. Turn the foot **(B)** to adjust.
 - C. Tighten the jam nut **(A)** when the foot makes full contact with the floor.
4. Repeat with any additional feet that may still need adjustment.

4. Operation

4.2 Install a Pail

⚠ WARNING! Avoid serious personal injury. Do not open the door until the machine comes to a complete stop; moving parts inside could cause serious injury.

1. Open the cabinet door
2. Pull the red ratchet level **(A)** toward you and turn the handle on the top of the clamp **(B)** counterclockwise to raise the plate.
3. Slide the pail under the clamping (top) plate **(C)**
4. Position the pail in the grooves on the bottom plate **(D)**. The grooves on the plate keep the pail in place during mixing.
5. Lower the clamping plate **(C)** by turning the handle clockwise. Once the plate makes contact with the pail, tighten another 1/4 turn.
6. Secure the bail with the bail spring.
7. Close the door and turn on the remote switch. turn the switch off after the desired mix time.

NOTICE

Avoid damage to the machine

- A safety interlock interrupts machine operation if the door is open

4.2 Remove a Pail

1. Raise the clamp all the way to the top by holding the ratchet lever open while turning the crank handle counterclockwise.

2. Unfasten the bail spring.

3. Remove the pail:

Metal Pails: Grab pail handle and pull forward, allowing the base of the pail to leverage its self off of the strike plate near the roller. Pull the handle to remove the pail from the machine.

Plastic Pails: Lift the pail by the lip with both hands and pull it toward you, being careful to keep the bottom from catching on the strike plate.

5. Care and Maintenance

 **WARNING!** Avoid electric shock. Always remove power from the machine per your company's lock out/tag out procedures before performing cleaning and maintenance tasks.

5.1 Cleaning

 Avoid serious personal injury. Do not use solvent-based cleaners or thinners, or other combustible cleaners.

- Keeping the machine clean is important for reliable operation.
- Remove water-based/glycol colorants or base paints spilled on machine surfaces using lukewarm water and mild detergent.
- To preserve the appearance of the machine, do not use abrasives to clean machine surfaces.

5.2 Maintenance

Lubrication:

1. Speed Reducer: Maintenance is not required. If an oil change is necessary due to debris build-up:

A. Remove the oil drain plug on the bottom side of the machine and drain the oil from the gearbox.

B. Remove the oil level plug and fill only up to that level: with Mobil SHC 634 Synthetic oil. Do not overfill or underfill.

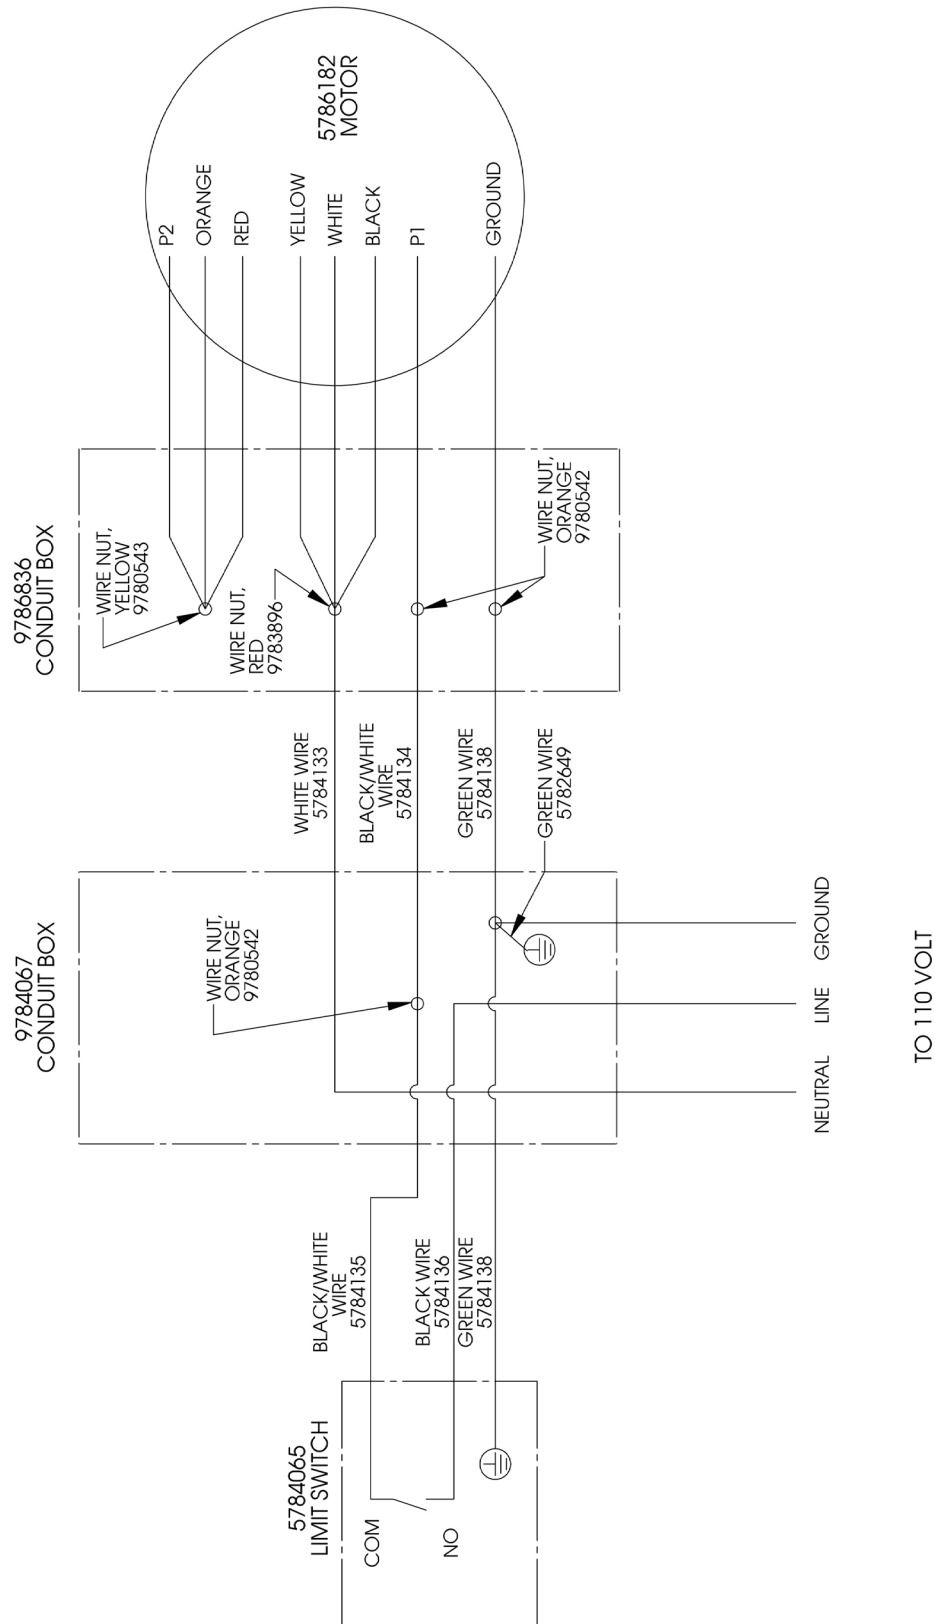

2. Clamp: Lubricate the clamping screw threads and thrust bearing as needed with 3-in-1 oil.

3. Ratchet Lever: Lubricate the shaft as needed with 3-in-oil.

6. Troubleshooting

PROBLEM	CAUSE	REMEDY
Machine won't operate	Not connected to power source	Connect to power source
	Motor thermal protector activated	Allow to cool, then restart
	Building circuit breaker or fuse blown	Reset breaker or replace fuse
	Machine door does not make contact with limit switch	Readjust switch to make contact with limit switch screw when door is closed
	Machine circuit breaker tripped	Reset by pressing circuit breaker back in
Pail won't fit properly into clamping plates	Pail damaged	Fix or replace pail
Machine doesn't shut off at end of mixing cycle	Faulty controller	Contact Radia Customer Care
Machine doesn't shut off when door is opened	Faulty door limit switch	Contact Radia Customer Care
Increasing mechanical noise	Bearings worn or damaged	Contact Radia Customer Care
Pail rotates inside the clamping plates	Top clamp pad worn	Replace pad
	Top clamp not secure	Turn the crank handle down until top plate is snug on pail

9. Ordering

Replacement Parts

HOW TO ORDER REPLACEMENT PARTS

Replacement parts can be ordered from Red Devil Equipment Co. by telephone, fax, or email:

RADIA

800-221-1083
763-533-2969
763-533-0015 (FAX)
orders@radiaproducts.com

If you need help in determining the proper part(s) to order, please call Customer Care. at 1-800-221-1083. Always indicate the Model and Serial numbers of the machine when ordering replacement parts.

GENERAL PARTS REPLACEMENT POLICIES

While your machine is under warranty, do not attempt on-site repair or parts replacement without first contacting RADIA. (to protect your warranty). After the warranty expires, replacement parts and recommendations for on-site servicing are available from RADIA. Please contact Customer Care for assistance.

RESTOCKING FEE

A restocking fee will be charged on all unused parts which are returned.

For instructional "How To" videos please visit:
www.radiaproducts.com

10. Warranty

Equipment Covered Under This Warranty

05025X-1

Warranty

Radia warrants equipment manufactured by it and bearing its name to be free from defects in material and workmanship.

EXCEPT FOR THE WARRANTY SET FORTH HEREIN, RADIA MAKES NO WARRANTY WHATSOEVER WITH RESPECT TO THE EQUIPMENT, INCLUDING ANY (a) WARRANTY OF MERCHANTABILITY; (b) WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE; OR (c) WARRANTY AGAINST INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS OF A THIRD PARTY; WHETHER EXPRESS OR IMPLIED BY LAW, COURSE OF DEALING, COURSE OF PERFORMANCE, USAGE OF TRADE OR OTHERWISE.

This warranty applies only when the equipment is installed, operated and maintained in accordance with written Radia instructions as appearing in the owners' manuals.

This warranty does not cover, and Radia shall not be liable for, any malfunction, damage, or wear caused by faulty installation, misapplication, abrasion, corrosion, inadequate or improper maintenance, negligence, accident, tampering or substitution of non-Radia component parts, modification or use for non-intended purposes. Nor shall Radia be liable for malfunction, damage or wear caused by the incompatibility of Radia equipment with structures, accessories, equipment, or materials not supplied by Radia.

Subject to the limitations set forth above, Radia shall (i) repair or replace the equipment (or the defective part) or (ii) credit or refund the price of such equipment. Costs of labor and transportation for service of machines under this warranty will also be covered during the warranty period if Radia elects to repair or replace the equipment. Normal ground freight will be covered for replacement parts sent within the warranty period. For customers outside of the US and Canada, the warranty is for parts only. Ground or common carrier ground freight will be covered for the return of defective items only. In no case shall Radia's liability exceed the amount of the purchase price.

*All warranty repairs must be executed by a Radia Authorized Service Center or warranty will be voided.

THE REMEDIES SET FORTH HEREIN ARE PURCHASER'S SOLE AND EXCLUSIVE REMEDY and RADIA'S ENTIRE LIABILITY FOR ANY BREACH OF THE LIMITED WARRANTY SET FORTH HEREIN.

Please contact your Radia Relationship Manager at 800-221-1083 for specific questions regarding specific questions regarding warranty terms.
