

# Rolling Green CC Recommendations

## Helping You Navigate COVID-19

### General Actions to Help Prevent the Spread of Covid-19

- Allow one person to ride per cart, family members can ride together.
- Golf bag must remain in the golfer's possession at all times. After play, no staff member should handle bag. Recommend keeping in car or at home. It should not be returned to the bag room.
- All bathrooms wiped down and cleaned every few hours. Hand sanitizers available in every bathroom.
- Walking should be encouraged.
- Take out food or box lunches only.
- Allow six feet between the check in counter and the next guest.
- Flagstick cup liners can be elevated two to three inches above the surface of the putting green and players putt to the cup liner rather than allowing the ball to go into the hole thus eliminates the need to remove the flagstick.
- Bunker racks are removed from play.
- Practice facility will be set up at every other spot.
- Increased cleaning/sanitizing of on course restroom facilities.
- Merchandise can not be handled for sizing and other reasons, only purchases.
- Wash your hands, wash your hands, wash your hands! Don't touch your face.
- Frequent and thorough cleaning procedures for high touch areas (i.e. door knobs, light switches, tables, chairs, etc.).
- Be diligent to the protocol of social distance, hand washing and other best practice recommendations put forth by the CDC.
- Please recognize proper social distance of six feet or more from others to limit physical contact such as handshakes.
- If you do not feel well stay home.

Thank You,

Rolling Green CC
