BALANCE PROJECT

The Balance Project explores a vision of health, science and nature, recognizing the importance of the interconnections between us, the food we consume, how we produce that food and the natural world at large. This hands-on experience brings young people together with farm and ranch related industry leaders to create and support programs and events that raise awareness and generate action for change. It's time to look at our health problems from a new perspective, one based on an understanding of how our health and ultimately our destiny as a species are inextricably intertwined with the natural world.

LOVE, PEER SUPPORT & SENSE OF FAMILY

Scott Foundation has big aspirations and a different path for Arizona foster youth. We imagine a journey that changes the face of humanity and inspires our kids to be their absolute best today while making tomorrow's world a much better place for all. We imagine an education and societal system focused on the power of community rather than competition; and we imagine a world where children are taught we are not separate, but instead, we are all a part of something much bigger than ourselves - we are one.

Scott Foundation is a 501(c)(3) nonprofit organization that invests in the 4-year future of Arizona foster youth who wish to make the world better than they found it. Since 2007, Scott Foundation has impacted the lives of 6,000+ kids and have redirected over \$763K In-Kind gifts to those in need while teaching mindful selfless service. The foundation produces year-round experiential programming that highlights, inspires and educate youth on the importance of developing *inner wealth*, while mindfully developing their heart and purposeful career path through selfless service.

"In the beginner's mind there are many possibilities, in the expert's mind there are very few."

- Shunryu Suzuki

EXPERIENCES

BEGINNING FARMERS

Kids experience a local Farmer's Market learning the pros and cons of what organic and fresh produce mean to our health and community.

ARIZONA WORM FARM

Allows kids to tour and take a class at Arizona Worm Farm. Worms Reduce, Reuse, Recycle and kids can too! Kids learn how to love garbage. And hopefully, never buy fertilizer again!

BEE POWER

Kids experience a local Bee Farm and how critical they are to our food and farming process. What would our world be like without them?

JAPANESE FRIENDSHIP GARDEN

Kids learn the ancient wisdom of gardens, the different plants, flowers and how nature plays a critical role in healing and transformation.

DESERT BOTANICAL GARDEN

Kids experience the unique and beautiful plants that thrive in some of the hottest and driest parts of the world; learning also how it's powered with 100% renewable energy.

PRACTICE OF COMPASSION

KIDS WHO PLANT TREES

Strengthens kids leadership skills giving them the opportunity to speak with world leaders on Earth Day. Plus an opportunity for them to purchase and plant trees with a unique commemorative plaque.
