FINDING TRUE SELF

The Finding True Self Project offers hands-on experience with self-care and wellness related industry leaders. Here, kids discover the borderless nature of our inner world, feelings and imagination beyond words. They learn how to find their answers inside - "to see within", which means to know yourself, and to know yourself well enough to be able to put yourself in other people's shoes. Working together with community partners that create and support programs and events that raise awareness of self-care, wellness and vibrational living while advancing the stewardship of caring for those less fortunate.

LOVE, PEER SUPPORT & SENSE OF FAMILY

Scott Foundation has big aspirations and a different path for Arizona foster youth. We imagine a journey that changes the face of humanity and inspires our kids to be their absolute best today while making tomorrow's world a much better place for all. We imagine an education and societal system focused on the power of community rather than competition; and we imagine a world where children are taught we are not separate, but instead, we are all a part of something much bigger than ourselves - we are one.

Scott Foundation is a 501(c)(3) nonprofit organization that invests in the 4-year future of Arizona foster youth who wish to make the world better than they found it. Since 2007, Scott Foundation has impacted the lives of 6,000+ kids and have redirected over \$763K In-Kind gifts to those in need while teaching mindful selfless service. The foundation produces year-round experiential programming that highlights, inspires and educate youth on the importance of [developing inner wealth](#), while mindfully developing their heart and purposeful career path through selfless service.
