HAPPY BELLY PROJECT

The Happy Belly Project advances the stewardship of food security while providing experiences that inspire and motivate young people to help end hunger. This hands-on experience brings young people together with chefs and farmers. There are lots of ways to log a culinary education, but the fast-paced hospitality industry is a competitive marketplace. Working side by side with industry leaders, kids learn where their food actually comes from, how to prepare along with a passion for cooking and sense of family around that gathers around the table.

LOVE, PEER SUPPORT & SENSE OF FAMILY

Scott Foundation has big aspirations and a different path for Arizona foster youth. We imagine a journey that changes the face of humanity and inspires our kids to be their absolute best today while making tomorrow's world a much better place for all. We imagine an education and societal system focused on the power of community rather than competition; and we imagine a world where children are taught we are not separate, but instead, we are all a part of something much bigger than ourselves - we are one.

Scott Foundation is a 501(c)(3) nonprofit organization that invests in the 4-year future of Arizona foster youth who wish to make the world better than they found it. Since 2007, Scott Foundation has impacted the lives of 6,000+ kids and have redirected over \$763K In-Kind gifts to those in need while teaching mindful selfless service. The foundation produces year-round experiential programming that highlights, inspires and educate youth on the importance of developing *inner wealth*, while mindfully developing their heart and purposeful career path through selfless service.

*"We think that sometimes poverty is only
being hungry, naked and homeless.
The poverty of being unwanted, unloved and
uncared for is the greatest poverty. We must
start in our own homes to remedy this kind of
poverty."*
