

Parent Partnership Policy

Statement of Intent

We believe that children benefit most from Early Years Education and Care when parents and settings work together in partnership. Our aim is to support parents as their children's first and most important educators by involving them in their children's education and in the full life of the setting.

Dreamland welcomes all parents to be involved within the setting and is open to any new suggestions. We try to involve parents by implementing the following things:

- All parents receive a daily feedback for the child informing the parent of how their child's day has been.
- Dreamland Nurseries will have Parents Evenings twice a year, which will give parents and practitioners an opportunity to discuss the child's development and concerns.
- A notice board is displayed in the nursery and parents are updated on any new information that arise, this is achieved through letters, questionnaires or verbally.
- Feedback sheets and questionnaires are issued to parents on regular basis, this helps us to continue to improve and maintain a good quality standard of childcare. This also helps provide a good parent partner relationship.
- Parents are provided with all information from Ofsted.
- Parents also are given the opportunity to talk to practitioners to discuss any concerns or issues they may have.
- Parents can also access lots of different information from our website and anything of relevance will be on display in our entrance area.
- Dreamland will be working with the connect app as another communication method for parents.
