

PTSC Annual Judged Meet at B&D Creekside Activity Center, Latrobe, Pa.

June 6-7, 2025

On Friday and Saturday June 6-7th our chapter hosted its annual 2-day judged meet event at a B&D Creekside Activity Center in Latrobe. Everyone who has attended this event in the past knows how nice the facility is for judging Corvettes.

All but one of the cars registered for flight judging was able to have their ops done before the rain started Friday late afternoon.

After we finished operations judging on Friday we held a judging school. Norm Neffield was the presenter. His topic of discussion for the power point presentation was "Tires according to NCRS". He gave a very detailed talk on all the tires, sizes and manufacturers of the tires used on Corvettes starting with the C1 generation and ending with the current generation. We had about 24 members present for the school.

Flight judging began on Saturday at 9:00 after our Chairwoman Brooke Madeira welcomed everyone and judging chair Bill Bryan held his judges/owners meeting.

We had at least six Corvettes registered for Sportsman Display, but the weather did not cooperate. Sadly, the rain was so bad on Saturday morning that no one was willing to bring out the cars for Sportsman Display.

We had a great lunch served at "Dexterz" restaurant which is on sight located in the activity center. The menu was spaghetti and meatballs, rolls, tossed salad, drinks and cupcakes for dessert.

Member, John Kuhns came thru once again as he so often does by securing 7 sponsors at \$100.00 each. This certainly helps defray the cost of the facility rental each year.

Our PTSC would like to thank the following people:
