## Allen Falls Luxury Cabin

*Allen Falls Cabin*

## Welcome

The Allen Falls Cabin was fully renovated in 2025 after being purchased sight unseen by Missouri resident John Furgusen, who fell in love with the listing photos of the 30 acres of mature pine and hardwood forests, the triple waterfalls bordering his property and the well-built three-season cabin.

His real estate agent suggested he make contact with Sandy Maine a local newly retired business woman who manages seasonal short term rentals on her own seasonal property near Sylvan Falls. Sandy agreed to manage John's beautiful property

Getting the property ready included many months of renovations and preparations to bring the cabin and trails up to a high standard for the enjoyment of guests as well as for an occasional visit from the owner.

The area around Allen Falls was at one time a thriving community with a very interesting history!

We have provided you with historical written accounts by locals long passed and hope you will take the time to get to know more about the amazing settlers and the town of Allen Falls which they built and occupied for many years. You can find these historical writings in the top drawer of the hutch in the living room should you have an interest!

### Checking IN

Self check in is at 3pm or later unless arrangements have been made for an earlier check in. We will accommodate an earlier check in if possible. You will be sent an auto message the day before check in with directions and instructions.

### Canoeing and Kayaking

At one time the small rivers of the North Country were the focus of commerce. Today, the rivers are quiet; the surviving mills are no longer the center of activity. Few if any other areas can offer so many rivers with such easy and numerous access points. There are more than 200 rivers, ponds and lakes in St. Lawrence County and we are also part of the Adirondack Park, which boasts more than 3,000 bodies of water.

As the rivers finish their rush out of the mountains they begin but never fully settle down. Waterfalls and low water rapids are numerous along all the rivers and dams often block the way. Motor boats play in the longer sections of river but most rivers see little or no traffic.

You hardly need a guide to canoe or kayak in the area. Every stretch of river is worth exploring and usually has easy access.

### Options in the Parishville, Colton, Potsdam Area:

#### Raquette River: Potsdam

The dam in Potsdam backs up the river nearly two miles and is a great place for a quick paddle or fishing. Access is in Ives Park, behind the Clarkson Inn, 1 Main Street, Potsdam and there is a public parking area next to the Inn's parking. For more launch sites along the Raquette river go to:

[dec.ny.gov/places/fishing-and-canoeing-the-raquette-river](http://dec.ny.gov/places/fishing-and-canoeing-the-raquette-river)

#### Cranberry Lake

The Cranberry Lake region is one of the largest remote areas remaining in the State. The lake covers 11 square miles and has 55 miles of shoreline, over 40 of which are state land. There are also 42 primitive campsites along the shoreline.

Visit [Cranberrylake50.org](http://Cranberrylake50.org)

#### Higley Flow

Boat/Canoe/Kayak launching is available at Big Rock; the Brookfield site off Pine Road. Trailers and cars must be parked away from launch area. Also, boat/canoe/kayak launching is available at Higley Flow State Park during Park hours. During camping season, normal fees apply. Canoes and kayaks may also launch on Cold Brook Drive near the intersection of NYS Route 56.

#### Colton Flow

The South Colton Flow is sometimes referred to as Lower Higley Flow. This is the least wild of any of the Raquette River Impoundments. The flow is largely not affected by wind. Waterfowl is very common and many of the birds are

used to seeing people on the water. The southern part of this paddle has many "fingers" to explore. The northern part of the flow offers views of part of Colton's Historic District.

#### Raquette River - Colton to Brown's Bridge

This challenging run for advanced paddlers is a classic Adirondack run with a pool-drop character, but with the rapids much closer together. The first mile drops 200 feet through seven distinct rapids separated on average by only 100-200 yards.

### Waterfalls

**Harper Falls:** Harper Falls is on the North Branch of the Grasse River. View the interactive trail map for Harper's Falls Trail on [STLCTrails.com/harpersfallstrail](http://STLCTrails.com/harpersfallstrail)

Directions: From the intersection to the trail parking is ½ mile on the Donnerville Road which is dirt and gravel and is shared with ATV users, so please use caution as there are several blind hills and turns. Starting from Donnerville Road and walking up the river toward Harper Falls offers a relaxing trek, with a couple of hills and small creek crossings.

The path has stone walls along the edge, these are the remnants of an old sawmill. This mill was made during the time the town of Donnerville was active and running.

**Stone Valley:** The trails in Stone Valley is one of the most popular nature walks in the North Country. Following the shores of the Raquette River through Colton, the scenery is amazing. There are a series of waterfalls that continue for a mile or more along the trail, which extends for two or more miles. During the spring, the power of the highwater from the snow melt in the Adirondacks is impressive. In winter months expect the beginning of the trail to slippery and use caution when walking along the river.

There are a series of signs along the path describing some of the geological features of the area. To the geologists this is a unique area, the connection of the Adirondack Mountains and the St. Lawrence Lowlands. Watch for the signs posted on the trees to learn more.

Directions: From Rt 68, turn left on to Rt 56 in Colton. At the Hepburn Library, turn right. There are two access points to the trails, one before the bridge near the Colton Historical Society, and one across the bridge near the Colton Fire Department. If you are coming from Rt 56 north, take a left at the Hepburn Library.

**Tooley Pond:** The land along Tooley Pond Road is the Northern River Flow-Tooley Pond Tract, which is a section of the New York DEC public lands, allowing access to this simply amazing place. A 16-mile section of the South Branch of the Grasse River meanders within the tract. Along this stretch, six major waterfalls exist with a variety of named rapids. The falls include: Rainbow Falls, Bulkhead Falls, Flat Rock Falls, Twin Falls, Sinclair Falls and Basford Falls. They range from the 40 foot drop of Rainbow Falls to the gentle sloped falls at Sinclair Falls, a perfect place to have lunch. The South Branch of the Grasse has excellent kayaking and canoeing with easy carries around the falls, if you do not desire to take the express Rt. There is also an enjoyable hike up Tooley Pond Mountain at the southern end of the road.

In 1866 the town of Clarksboro was established near Twin Falls on the shore of the Grasse River. An iron furnace and water-run sawmill were built to support the town. The foundation of the sawmill can still be seen at the top of Twin Falls. Iron was mined in this region until the 1950s when the mines closed because of low iron prices. Exploring this area can reveal the unique history of the County and show some of the best hidden waters.

Directions to Tooley Pond Road: From the south or east: Turn north on Tooley Pond Road from NY Rt 3, about a mile west of Cranberry Lake (Right-hand turn).

From the north and west: Tooley Pond Road is located three-quarters of a mile east of Degrasse, along St. Lawrence County Rt 27.

Directions to the Falls: Some of the falls can be seen from the road, while others are a short walk along trails. The mileage below is for starting at the northern end of Tooley Pond Road in Degrasse. There is no parking area for many of the falls so pull off to the side of the road as far as possible.

**Basford Falls:** 1.4 miles- follow trail to falls. View the interactive trail map at [STLCTrails.com/basfordfalls](http://STLCTrails.com/basfordfalls)

**Sinclair Falls:** 2 miles- Sinclair Falls is located just South of Lake Gorge Road. There is a small information stop in the parking lot. View the interactive trail map at [STLCTrails.com/sinclairfalls](http://STLCTrails.com/sinclairfalls)

**Twin Falls:** 3.1 miles- Before this there is a dirt road giving a good view of both falls. After this is the top of the falls, where the mill was located.

**Stewart Rapids:** 3.3 miles- Can be seen from the road, large turn in the river.

**Bulkhead Falls:** 3.5 miles- Right before turn in the road, follow old road marked no vehicles to the falls.

**Rainbow Falls:** 6.1 miles- Look for a clearing marked off with boulders. Follow old road to the river, cross foot bridge to island and continue walking on path until you see the falls. View the interactive trail map at [STLCTrails.com/rainbowfalls](http://STLCTrails.com/rainbowfalls)

**Copper Rock Falls:** 8.6 miles- Look for red blaze on tree along with sign including fishing regulations. This is the beginning of the trail, follow white marked path to water and falls. View the interactive trail map at [STLCTrails.com/copperrockfalls](http://STLCTrails.com/copperrockfalls)

**Lampson Falls:** The most popular waterfall in St. Lawrence County, is easily accessed at the Degrasse State Forest on Rt 38. An impressive falls at an estimated 40 feet tall and 100 feet wide. Lampson is a shallow and broad-faced falls, which can have huge amounts of water flowing over it during peak melt season in the spring. During the summer it calms and becomes a much quieter setting. At the bottom of the falls a small beach has formed allowing for swimming and picnicking.

The 15 minute walk into this area is well worth it.

View the interactive trail map at [STLCTrails.com/lampsonfalls](http://STLCTrails.com/lampsonfalls)

Directions: The access for Lampson Falls is the Grasse River Recreation Area on Rt 27 in Clare, just north of Degrasse. Look for the brown and yellow DEC sign at a gated road. Park on the road side and head down the dirt road.
