

Safety Information

Trails & River Tram: We will provide you with a map of over 3 miles of private woodland trails which are well marked and maintained. Enjoy the use of our trails for hiking, swimming, skiing and snowshoeing. Enjoy kayaking or canoeing on the river. Boats and gear are provided. Snowmobiles may only be used on the main woods road for access to and from the cabin. All recreational activities are at your own risk. Your cell phone will probably not work once you get out of range of the cabin so plan accordingly.

Campfires: There are two designated places to build and enjoy a campfire. Please refer to the property map for locations. Fires must be started with paper, and kindling... never kerosene or gasoline. Please keep your fire reasonable in size. Please replenish any kindling used before check out. Split and seasoned firewood is provided at the cabin fire pit. If you use the camping area firepit overlooking the river, you will need to gather dead and down wood for your fire. All fires must be extinguished with water before retiring for the night.

BBQ grill: Please use caution when using the barbecue grill on the deck. Please clean the grill with the wire brush provided before you check out.

Gas Range: The gas range is a restored 1930's vintage propane stove. Such a joy to use!! **MAKE SURE THE BURNERS ARE IN OFF POSITION WHEN NOT IN USE** to avoid serious problems caused by leaking gas. The burners and oven must be lit manually with the flame wand kept on the windowsill by the stove. **Do not allow children to play with burner knobs.**

Stairs to Loft: The stairs to the loft are ladder style and not suitable for children or persons with movement impairment. For your safety please back down the stairs and use the railings.

Fire Extinguisher: Located near refrigerator.

Loft Fire Escape Ladder: Located under the bed in the loft. In the unlikely event of a fire escape through the window to outside ground level and meet at the Maine Family Farm house.

River: Depending upon rain levels and time of the year the high water level will be as much as 4 feet and low water as much as 2 feet deep near the camp. Normally the water levels near the camp JUNE - SEPT are 2-3 feet. Enjoy the rush and excitement of spring breakup in April and May but do not enter the water during that time unless you are a kayaker familiar with Class 4 rapids. It's fun to ski or snowshoe on the river during winter. Your hosts will let you know if the ice is thick enough to be safe.

Swim Hole: The location of the clothing optional swim hole is identified on your map. The water gradually deepens from the dock at 1 ft to the rock at 6 feet deep. The water is usually very comfortable for swimming June 1- September 30.

SAFE ENJOYMENT OF VINTAGE PROPANE STOVE

All knobs are in "off" position.

**CAUTION ALL KNOBS MUST BE IN OFF POSITION WHEN NOT IN USE
TO PREVENT EXPLOSION OR CARBON MONOXIDE POISONING.**

Knob on right is in "on" position.
