SUGARING?

IF YOU ARE SEEKING BETTER RESULTS THAN WAXING, THEN BODY SUGARING IS FOR YOU

BODY SUGAR IS A GENTLER METHOD OF HAIR REMOVAL FOR ALL PARTS OF THE BODY AND FACE.

IT'S EFFECTIVE ON ALL SKIN TYPES AND ALL HAIR TEXTURES

IT IS A HAIR
REMOVAL
METHOD MADE
FROM LEMON,
SUGAR & WATER

Why Choose Sugaring?

- The hair is removed in the natural direction of growth (opposite to waxing)
- Hair is not torn from its root sheath (often not achieved with waxing))
- Free of colours, fragrance, petrochemicals (all present in waxes)
- Minimal to no skin reactions (wax can take off too much skin very easily)
- Won't burn (sugar is kept at much lower temperatures than regular wax pots)
- Sugar is safe on dry itchy skin, psoriasis & eczema

Feels more like having a massage than being waxed!

(with a little sting)

Frequently Asked Questions

Is it safe to do while pregnant?

We have successfully done a full Brazillian the day before birthing day!

I shaved only a few days ago, can I still get sugaring?

While sugaring can be performed on short hair, we prefer to have ten days growth to ensure a great finish that you'll love.

Where can I have Sugaring?

Sugaring is safe for both face and body:

- legs
- arms
- bikini
- peach fuzz on face
- lips and chins
