

## Our much-needed new Squad Truck has arrived!

This truck replaces the previous 2002 SUV Squad. **It was ordered 14 months ago**, but due to supply chain issues, it was just delivered. It will be the primary vehicle used by the Volunteer Firefighters in response to emergency calls. As per a long-standing history of fire departments, members of the TIVFD “pushed in” the new apparatus. We look forward to receiving the new engine very soon. Your support of TIVFD is not taken for granted and greatly appreciated!
