

GARY ST. LAWRENCE

for

GEORGIA STATE SENATE

SENATE DISTRICT 51

MY STATE SENATE STRATEGY

1. Replace the Republicans in the General Assembly who let this happen with people who actively represent ALL their constituents, and not just their own net worth.

PARTY CONTROL OF GEORGIA STATE GOVERNMENT

2. Review and renegotiate every utility contract the state has with service providers and eliminate all expense-padding and excess markup.
3. Write stricter requirements for all new state contracts that prohibit automatic upcharges and blind approval without a forensic financial audit of all amounts, figures and payment schedules.
4. Impose mandatory hard deadlines for delivery of information, reports and evidence;
5. Impose maximum five-business-day response time on all government inquiries and correspondence;
6. Replace incompatible inter-departmental communication and data storage systems;
7. Committees, sub-committees and studies that deliver no tangible results or implement no corrective actions must sacrifice the funding from within their own existing current budgets - no supplemental funds;
8. Precisely monitor assignments, committees, sub-committees and task forces to ensure that no tax dollars are wasted on redundant or contradictory efforts.
