My Pledge to Georgia

- ★ I don't avoid hard questions or pretend I never heard or saw what they're about.
- ★ I will never rubber-stamp any legislation in the GA Senate.
- ★ I will never take any official action or propose any legislation just because someone in Washington or the Democratic Party told/wants me to.
- ★ I will never write a bill for my own personal profit, nor for any family or friends.
- ★ I will hold town halls regularly and be available to ALL constituents.
- ★ I stand with all Georgians as equals, all deserving the same respect, rights and representation. I will not discriminate or spread partisan rhetoric, advocate hate, or support exclusion.
- ★ I will never propose or support legislation that specifies or excludes any person or group because of their race, social standing or wealth.
- ★ I don't give form-letter responses that only vaguely relate to a question I'm asked.
- ★ I'm not in this to get rich or powerful. The power and wealth come from – and belongs to – the people of Georgia, and I will see that they have it.
- ★ I loathe hypocrisy and will not engage in it.
