

Joint Statement by Sheriff David Clarke (Ret) and Hedieh Mirahmadi

“Hedieh Mirahmadi and I were business partners with DAC Enterprises. She has been tremendously helpful to me as I traverse the political waters of Washington DC. She spent a career fighting the myth that all Muslim’s or people who practice Islam are clandestine perpetrators of jihad and terror. Many hate-filled people use social media as a platform to launch these insidious attacks against her by intimating that she is an agent of the Islamist Muslim Brotherhood. First, they have no depth of knowledge about Muslim culture, Islam or the history of the Muslim Brotherhood. That Hedieh is a Muslim Brotherhood infiltrator is not only a lie, it’s a damn lie.

Recently Hedieh and I ended our business relationship. Emotions can ensue following these events. In a reactionary moment, I put out a tweet pointing to what her haters have said about her motives and it’s insinuation gave credibility to their lies. I was wrong in doing that and I have apologized to her. For the record, Hedieh Mirahmadi is an American Patriot who has fought against and continues to fight radical Islam.” –

“I am very grateful for David’s heartfelt apology and the kind words he has said about my work. It was a pleasure to be part of his transition into the private sector and I am extremely proud of what we accomplished together. Business disputes are rarely amicable; and, I also apologize to him for the actions I took that made it impossible to for him to carry on the business as it was. I wish him much success in his future endeavors and know he will continue to make valuable contributions to the intellectual and political debates that are at the core of conservatives values we both cherish.” –
