**EXECUTIVE BRANCH**

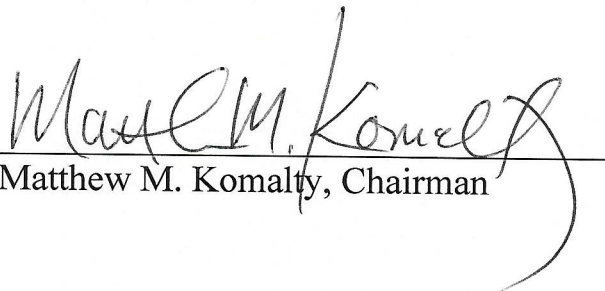

---

November 23, 2020

Dear Kiowa Tribal Member:

Our Tribe has thrived and prospered over the past few years by cooperation and mutual respect. We are now in a unique time that calls for appreciation and the setting aside of personal differences in order to serve the will of the people by your tribal government. Unfortunately, our legislature does not agree. I have followed the Constitution of the Kiowa Tribe and have successfully defended myself from unwarranted attacks from our legislature. We passed a constitution that is based on a clear separation of powers. When one part of our government oversteps its constitutional authority it is the responsibility of another equal branch to take action in order to balance the impact of government which puts the people first.

As we move forward I believe I must take some actions to protect the Kiowa people. Therefore, I am taking some executive actions to hold the legislature, the election committee and others accountable for their actions. My actions will be transparent and honest. There will be more information disclosed soon. My goal now is to simply reassure the Kiowa Tribe that all is well and we will continue to move forward in a manner that is most beneficial to the Kiowa people.

  
Matthew M. Komalty, Chairman
