Morgan O'Brien | Owner |

Communication Station Therapy

"We use play-based, neurodiversity-affirming speech therapy to help kids communicate and connect. Our partnership with Together Just has strengthened that work. Together, we've helped children build language skills, emotional regulation, and self-advocacy across environments."

SERVICE of the month

NeuroDrive is a golf-based therapy program that uses the structure of the game to build mental health, focus, and real-life skills. Together Just is a certified provider, with clinicians trained to meet each participant where they are, on the course and beyond.
