## June is Pride Month

As we celebrate pride this year, it is important to acknowledge how mental health affects LGBTQ+ youth everyday. According to the Trevor Project, in 2021 48% of LGBTQ youth reported they wanted counseling from a mental health professional but were unable to receive it in the past year. This is why it is important to advocate mental health services to all. At Together Just, we work to provide treatment, education, and advocacy for all members of our community.

For 24/7 assistance you can call or text The Trevor Project's hotline at 1-866-488-7386.

## 2022 Summer Camps

Together Just is hosting two camps this summer for the youth in our community! Our goal is to promote leisure participation and exploration, increase social skills, and help our youth build relationships with their peers in the community.

Be sure to check out our Instagram and website for more information about registration and upcoming camps!
