Note: Peter Farley was kind enough to send me his article on chemtrails (entitled "Killing Us Softly") which I wish to share with you. It discusses how chemtrails and other devious schemes are stunting humanity's physical health and spiritual potential, and offers ways on how we can deal with it. I have reproduced a HTML version here. The original PDF version is available here but the links may not be workable. Both versions are not copyrighted and can be passed on as desired. Killing US Softly

A Primer on Dealing with Chemtrails and a Possible Cure

By Peter R. Farley <http://www.4truthseekers.org/> "It is also in the interests of a tyrant to keep his people poor, so that they may not be able to afford the cost of protecting themselves by arms and be so occupied with their daily tasks that they have no time for rebellion." – Aristotle In light of Aristotle's wisdom and the fact that the New World Order is in fact stifling any attempts by truly spiritual people to raise their heads above the water financially, the challenge was to come up with a cure for the rampant effects of chemtrail spraying all over the world. While many will be tempted to search through the article for the 'cures', wisdom does not come from information alone. Knowing what you are dealing with and why this is all happening is just as important as the cure itself.

Guidance recommends you invest the time to read the entire primer so that you know what is going on and how it is and will affect you both now and in the future. Please be aware not

all of the links mentioned are still active since many of these articles were written a while ago.

### \*\*\*\* 1. Chemtrails Explained: Putting the Pieces Together

By Peter Farley Note: As with all my work, I "stand on the shoulders of giants", those who have spent their time methodically pulling together the findings for each one of the pieces I write utilizing information from other sources. Reference to the original articles is included or listed at the end of this article. If you haven't realized it until now . . . this whole war that has been raging in this corner of the Universe for eons is over the issue of control—the power to control the lives and energy of those beings who reside, not only on this planet, but also on all the other planets in this vicinity, and even into the other dimensions. As always, the best allegory I can find for this situation is in the book *A Wrinkle in Time* by Madeline L'Engle. Simply put, the whole thing is a battle between the Darkness and the Light (in its true form from the Creator or Source, not the Light which is also that of Lucifer) for the ultimate control of the Universe. If this sounds like you are living in another episode of the Star Wars series, welcome to reality and the biggest thing going on in Creation right now. This bigger war which is raging in the macrocosm of the Universe is also raging within each and every one of us, also called

the microcosm. And the chemtrails can be a fearful weapon in this war, as long as we remain in the victim state of consciousness. Planet Earth and its inhabitants, as the prizes in this latest and final battleground of the Galactic war, are crown jewels to the victor, not only because of the position this planet holds on the outlying edge of the galaxy, but as is explained further in my upcoming book, because it is a microcosm of the galaxy. Much like the United States is on planet Earth – Earth itself is a melting pot of so many different alien races, that it's conquest represents a conquest of all the home planets as well. The key to this penultimate battle is the coming ascension of planet Earth back into the fifth dimension, and the choice its people to either stay here in this dimension, or to go with it. The chemtrails fulfill that part of the Hopi prophecy spoken of about the Day of Purification when cobwebs would be spun in the skies. But what do you do if you were already in control of this planet? What would you do if you had already spent inordinate amounts of time and energy making it into the most sophisticated prison camp in the Universe—so much so that most of the inhabitants didn't even know they were prisoners? What lengths would you go to in order to prevent them from pulling off the Great Escape by beaming themselves and the whole camp up and out of your self-governing enclosure? Two things would become necessary for you to do: close or control the doorways or portals in and out of your camp (the always crucial 'head 'em off at the pass' in Earth wars); and keep the prisoners – preoccupied with their health and the day-to-day grind, genetically incapable of making the jump into hyper-space. Voila! -- the chemtrails. The ultimate purpose of the chemtrails can be seen in the most ubiquitous of symbols seen everywhere in the trails left behind over so many cities—the X. As one researcher discovered while researching the source of the X rune (Gebo) in the original Teutonic texts, it literally means a gift, or offering—the symbolic meaning being “sacrifice of the lower for the higher.” Certainly that is a familiar theme in the ways of the Illuminati here on planet Earth. All the true knowledge of Creation is withheld from us, the lower, and our lives and very existence here on the planet are sacrificed in service to those who deem themselves the higher and therefore more worthy to retain this cosmic wisdom. The first part of the New World Order's solution concerning the blockage of the portals into and out of the planet is dealt with in my upcoming book (available soon through my website). This blockage is being done from both inside the planet's atmosphere (at ground level), and also from outside the atmosphere through the many “secret missions” carried out over the past decades of “space exploration” by NASA and by the space shuttle, as well as many other earth-based space programs. Part A of the second aspect of the solution has to do, obviously, with keeping the economy insecure. This involves taxing the people so heavily as to keep the power out of their hands and with little or no money left even to stay alive. If this means inflating the stock market and the economy, or plunging us all into a “recession” or a depression as they have done before, then so be it. The evidence of these things is all around us if we simply choose to open our eyes. The whole idea behind the old “company store” was to keep the workers alive and working, reaping a windfall for the company, while growing further and further into debt by buying necessities at inflated prices through the company store. The workers then became hopelessly reliant on the “social security” of their benefactors, using their own free will to sell themselves into a lifetime of self-imposed

servitude. Not only are food supplies and housing now the most expensive commodities available, but we even have to buy such things as water and even air to remain even somewhat healthy and alive. The medical system is a crushing blow to freedom as it is now not only responsible for as many deaths as for the lives it saves—but it has also been positioned to bleed the economy dry of all its resources through high-priced sugar pills and drugs which cause more problems than they cure in the hands of illtrained practitioners. All this, while never once dealing with what is really killing the people--- fear and emotional stagnation. Part B of this scenario is to keep the people unhealthy, all the while genetically altering them enough so that they cannot even conceive of making the proposed jump back

into hyperspace along with the struggling planet. The process of doing this began a long, long time ago with the infamous Annunaki race of aliens featured so prominently in Sumerian and Babylonian history and the work of Zecharia Sitchin. These beings were responsible for originally stripping us of our 12-strand DNA in order to make of us a slave race. By doing this, they also stripped us of our God-given connection to our Higher Selves, that part of ourselves which is truly interdimensional and in touch with its Creator. By manipulating both the portals to the planet and the personal portals in our own DNA, the New World Order and its controllers hope to keep both us and the planet trapped here in the third dimension indefinitely for their own personal uses. This has already created a problem in that so many of those who have been passing on over this period of time have been reincarnating back onto the planet instead of going on to other places and other lessons,

simply because they have been trapped here by the dense physicality created on this planet, and by their attachments to worldly things and their inability to reconnect with their Higher Selves. As more and more children and adults become re-attuned to their original 12-strand DNA status with the increase in the planet's frequency, and as the date for planetary ascension draws ever nearer, the urgency to control this re-connection to our original selves has become an urgent and necessary part of the New World Order's agenda. In a recent article by Patricia Resch circulated on the web, Dr. Berrenda Fox provides her insights into these cellular and DNA changes. Dr. Fox is the holistic practitioner of the Avalon Wellness Center in Mt. Shasta, California. She has proven through her own work and blood testing that some people have actually developed these new strands of DNA. "We are making an evolutionary change, yet we don't know what we are changing into," says Fox.

"Everyone has one double helix of DNA. What we are finding is that there are other helixes that are being formed. In the double helix there are two strands of DNA coiled into a spiral. It is my understanding that we will be developing twelve helixes. During this time, which seems to have started maybe 5 to 20 years ago, we have been mutating. This is the scientific explanation . . . " What Fox is referring to is that the planet is already passing through the fourth dimension of vibration as of about 1982, headed for a quantum leap into the fifth level in about 2012-2013, the famed end of the Mayan Calendar. Hence we have the increase in UFO sightings (dimensional phenomena), and also in people's telepathic and intuitive abilities. "The changes are not known publicly, because the scientific community feels it would frighten the population," says Fox. "However, people are changing at the cellular level. I am working with three children right now who have three DNA

helixes.” Fox suggests that most people know and feel this already, and that many religions have talked about the change and know it will come about in different ways. “We know it is a positive mutation even though physically, mentally, and emotionally it can be misunderstood and frightening . . . You would almost think by knowing these children that they are half angelic or superhuman, but they’re not. I think they are what we are growing into during the next few decades.” Our immune and endocrine systems are the most evident of these changes, say Fox, and that is the reason she says she works with research into immunological testing and therapy. It is also one of the chief reasons why the chemtrails and other NWO practices target our immune systems and endocrine systems so heavily. “Some adults that I have tested actually do have another DNA helix forming. Some are even getting their third. These people are going through a lot of major shifts in their consciousness and physical bodies, because it is all one. In my opinion, the Earth and everyone here is raising its vibration. Many of the children born recently have bodies that are magnetically lighter. Those of us that are older and choose to change have to go through many physical changes.” Fox suggests that the easiest way to mutate our DNA is through a virus. DNA viruses like Epstein Barr and the Herpes #6 change cellular structure. This fact, as we shall see, has obviously not gone unnoticed by the New World Order. “Most people who go through this process and come out the other side,” says Fox, “have a new profession, a new way of thinking, or at least a starting of a new way of life. Even though they may feel really sick, tired, or hopeless at times, it can be a gift.” As I understand it,” she adds, “we have until about 2012 to complete this process.” The DNA and other body changes are also spoken of in an article titled ‘The Bigger Picture’ by Susanna Thorpe-Clark: “We are being changed physically from carbon-based beings with 2 strands of DNA into crystalline beings with 1,024 strands of DNA (eventually), because only crystalline substances can exist on higher dimensional levels. “This new state of being requires therefore that we physically, mentally and emotionally let go of 3rd dimensional concepts. Just as in death, the letting go is a major part of the change process, for one cannot take the old values and way of being into a new completely different afterlife. So the progression through changes compels us to let go of current relationships, jobs, careers, homes, possessions, and so on, if they are unable to support our new way of being . . . “Is it any wonder therefore, that there is a great deal of anxiety and fear being felt because these changes are already in progress, even though most people are not conscious of it . . . “These changes are not necessarily being experienced by everyone concurrently. A very small percentage of adults have already completed the entire change into crystalline form and now embody 1,024 strands of DNA . . . Some people are only just starting to move through these changes, and many others have yet to start. This process of change is known as the Awakening, or as the Ascension process, or known as achieving the Merkabah, or light body. “We need to transcend our fears and learn about love, real love, which has to start with the self. Because, until we can love and trust ourselves, we cannot truly love or trust anything or anybody else.” How does all this relate to the chemtrails and to the New World Order? The original three major theories explaining the chemtrail phenomenon i.e., weather modification, mass inoculation, and population control, have all been pretty much discounted by researchers as pointed out in Stan and Holly Deyo’s May 31st newsletter. None of these theories adequately explains the range of data

gathered. Furthermore, spraying is occurring worldwide, thus it has to be run by a multinational alliance of some kind, the likes of which can only put it into the class of that monolith known simply as the New World Order. The secrecy of the chemtrail phenomenon also puts it into the domain of black budget projects and shadow government operations in terms of the US, or even for any other government for that matter. Right now, people are still recovering from chemtrail induced sicknesses. Since chemtrail related deaths have been extremely low, the possibility of chemtrails containing only one single agent is very low. Double agent spraying is more likely. One somewhat benign agent is applied now, and its combination with an activator in the future would turn it lethal or at least trigger the desired results. The activator can then be another biological or chemical substance which triggers this new reaction in tandem with the first agent. To see how the chemtrails are manipulating both our health and our genetic makeup, we have to take a look at the contents of samples taken after chemtrail spraying. These ingredients have been obtained from the many analyses performed upon chemtrail residue samples and listed on the web: *Pseudomonas aeruginosa* - A common hardy bacteria that can be found in dirt. This could suggest possible contamination of chemtrail ground samples but also perhaps not considering that it is commonly genetically engineered by companies as PathoGenesis for various purposes. The natural strains have been found to contaminate hospitals and drinking water. When inhaled into immunosuppressed lungs such as those of victims with cystic fibrosis, it forms slime clusters called biofilms which are virtual bunkers against immune system defenses and antibiotics. It can transfer horizontally, meaning between species, genetic information to the host via transduction and conjugation. Conjugation involves the bacteria injecting a genetic package called a plasmid via a 'handshake' into a host cell, which receives it and in effect makes it a part of its own DNA. Transduction is similar, but instead of the bacteria sending a plasmid into the host, it sends bacteriophages (viruses) that contain some of the original bacteria's DNA and implants it within the host's DNA. This allows for genetic manipulation to occur. Aerosol Barium salts such as were used in Libya, Panama and Desert Storm where they were sprayed and exploded overhead to make the people extremely sick and weak. It is a radioactive material that accelerates and magnifies the effects of other mix ingredients by altering the chemical structure of the other agents. A spectrum analysis reveals only the barium compounds and hides the "bad stuff" by placing a shell around it. After time, it releases the other agent. Think of it as a time release death pill. Ethylene dibromide (dibromomethane) - Banned in 1984 by the EPA, EDB ( $C_2H_4Br_2$ ) is a carcinogenic fuel additive and insecticide with a chloroform-like odor. It is claimed to be similar to silver iodide, which was once used for cloud seeding and weather modification purposes. When absorbed, EDB causes central nervous system depression and pulmonary edema, which is fluid accumulation in the lungs. Symptoms of pulmonary edema include shortness of breath, anxiety, wheezing, and coughing. It is extremely irritant to mucous membranes and to the respiratory tract. These are all symptoms associated with the "chemtrail cough," and with the growing lethargy noticed in populated areas both here and around the world where spraying is taking place. If anything, EDB serves partly as a condensation nuclei around which water vapor in the atmosphere can condense, making thick chemtrails visible for satellite

tracking. *Pseudomonas fluorescens* - another strain of the *Pseudomonas* variety found most often in soil and on plants. On plants, it produces antibiotics which shield the plant from fungal and bacterial

infections. Most likely a contaminant in the analysis. Enterobacteriaceae - Includes *E. coli* and salmonella which are culprits in cases of food poisoning. Most interesting of the Enterobacteriaceae family is the *Klebsiella* genus, whose species is responsible for pneumonia infections (enough said). *Serratia marcescens* - a dangerous pathogen that can cause pneumonia. One link from the Canadian Intelligence Security Service formation on the San Francisco 1950 biological testing reports that “One of the biggest experiments by the government involved the use of *Serratia marcescens* being sprayed over San Francisco. This organism is especially nice because it produces a red/pink pigment when grown on certain media, which makes identification very easy. At one point, 5000 particles/minute were sprayed from the coastal areas inward. During this time, 1 man died (in hospital) and 10 others became infected in what was described as “a mystery to doctors.” Although the military

claimed it never did many follow up studies on these tests, one result was that it showed nearly every single person became infected with the test organism. In hindsight, now that some of this information has become declassified, it’s been shown that during periods following spraying tests, there were 5-10 times the normal infections reported.” Although attributed to the military and government sources, similar experiments were revealed to have also been performed by the Australian government on its people using various bacteriological agents, a country known for its extremely high rate of asthma and chronic lung problems. This advance testing was obviously an early phase for the NWO’s “final solution. *Streptomyces* - “*Streptomyces* are used to produce the majority of antibiotics applied in human and veterinary medicine and agriculture, as well as anti-parasitic agents, herbicides, pharmacologically active metabolites (e.g. immuno-suppressants)” A restriction enzyme

used in research labs to snip and combine DNA—such an enzyme cleaves open DNA and allows desired segments to be inserted before recombining. Other bacteria and toxic molds capable of producing heart disease, encephalitis, and meningitis—of which there are renewed outbreaks, especially in heavily sprayed cities such as Houston—as well as acute upper respiratory and gastrointestinal distress. It is known that within three days of a particular heavy spraying, outbreaks of respiratory illnesses occur in the exposed population. Some develop pneumonia, others colds, flu-like symptoms, and depressed immune functions. Instances of meningitis and encephalitis have also increased in correlation with sprayings. Note that no viruses are listed above. This is because viruses are difficult to detect in the laboratory, much less identify. However, most of the resulting illnesses do not respond to antibiotics, suggesting their causes are indeed viral. Such viruses are most likely

retroviruses such as the adenovirus for use in the genetic manipulation. Chemtrails now appear worldwide, though it has been claimed that none have been sighted in China. The Chinese influence on the Clinton presidency has been well established, not to mention the increasing dependence so many countries now have on China for both their manufactured goods and as a source of cheap labor. U.S. military and scientific technology has been freely given to China under much protest in spite of its aggressive stance towards this country. The New World Order seems to have made China into a new power base for

capitalism since the death of its infamous Communist leader, Mao Tse Tung. Although chemtrails in foreign countries may be due to planes originating from the US, or from US military bases in those countries, the heaviness of spraying there suggests that foreign governments and commercial agencies are also heavily involved. An answering machine tape recently given to

chemtrails researcher Will Thomas's Lifeboat News Service includes a message allegedly from the Victoria, British Columbia, Airport Authority's Manager for Airport Planning and Environment to city resident Mark Porter, who had inquired about unusual contrail formations being seen in the sky over the city. It seems to confirm that controversial "chemtrails" are being spread over that city as a joint U.S.-Canadian military operation. (<http://www.unknowncountry.com/news/?id=392> ) Another researcher in a bedroom

community of Portland, OR, a city which is sprayed often, relates that chemical tankers have been photographed on the ground at the Oregon National Guard base adjacent to the Portland International Airport just a few miles from his home. Considering the frequency and density of coverage of the chemtrails, the urgency of the NWO's agenda to head off the ascension process is self-evident. The project has risked discovery by employing commercial airlines to help with

the spraying, and such a risk can only be justified if the project itself were in the nature of an emergency. They have also risked their secrecy by spraying during the day (especially on weekends) to affect as many people as possible, when all below can plainly see these contrails are anything but. The altering of one's DNA via incorporation of foreign DNA from bacteria and viruses is the key to the genetic manipulation of our beings in order to stop the ascension process from going on within our bodies. This process is suggested in a Leading Edge article, quoted as follows (the italicized emphasis is mine): "One of the indications that vaccinations may in fact be changing the genetic structure of humans became evident in September of 1971, when scientists at the University of Geneva made the discovery that biological substances entering directly into the bloodstream could become part of human genetic structure. "In an experiment in Geneva, scientists extracted the

auricles of frog hearts and dipped them for several hours in a suspension of bacteria. Afterward, they found a high percentage of RNA-DNA hybridization between bacterial DNA extracted from bacteria of the same species as that used in the experiment and titrated DNA extracted from the auricles which had been dipped in the bacterial suspension. Bacterial DNA had been absorbed by the animal cells. This phenomenon has been dubbed transcession. There is evidence that this kind of phenomenon is happening all the time within the human body. It is conceivable, for example, that heart damage following rheumatic fever could be the result of the immune system reacting to its own cells producing a foreign RNA complex after absorption of foreign DNA." (see link) For those interested in the transcession capability of vaccines, consider this quote about gene therapy "Yet another technique is to simply inject naked DNA. This approach wouldn't work well as direct injection into the bloodstream because the body's DNA degrading enzymes would quickly digest it. But some experiments have shown that when naked DNA is injected directly into muscle tissue [as in a vaccine injection], say, the cells start producing whatever proteins the DNA codes for." In other words, transcession is the process whereby bacterial DNA becomes part of a host cell's DNA. The term transcession is more commonly known as

transduction, or conjugation, more generally termed horizontal gene transfer. Horizontal means between species, as opposed to vertical which is from parent to offspring. This is one way gene therapy seeks to correct genetic diseases, but it can also obviously be used to create genetic mutations of a different kind. Here's another excerpt from an article confirming the use of viruses in gene therapy: "To turn viruses into gene ferries, scientists have developed ways of stripping the genes out of a virus and substituting copies of the genes they want to transfer into cells. The virus is then mixed with cells taken out of the body that are then returned. Or they can be injected directly into the body itself, homing in on the cells of interest. Retroviruses, which insert their genetic code directly into the chromosomes of the host cell, have been used a lot because of their ability to break into chromosomes and insert the DNA. Other viruses are now also being used. One of the big drawbacks of viruses is that the immune system can't tell the difference between bad viruses and those that carry a beneficial gene. So, many of the viruses are rapidly wiped out [that is, of course, unless the immune system is weakened by other chemical/biological agents such that these viruses survive long enough to transduce their DNA into the host]." The article which first got me interested in this whole field was one I found in a newspaper about viruses being found in the tails of comets passing through space. The theory was that this might be how

"life" and diseases could be spread from one planet to another, like in some weird science fiction movie such as Day of the Triffids or Invasion of the Body Snatchers. To exist in such an environment as space, however, viruses would not be considered a life form as such. Viruses tend to travel through the nervous system, and are more like a parasite, living off its biological host—a true alien invasion indeed, energy vampires, much like those creatures portrayed in the recent hit movie, The Matrix, for the nervous system is in fact the electromagnetic system of the body. Non-invasive methods of gene therapy are already well established. A team at the Thomas Jefferson University in Philadelphia accomplished just that using an oral method of gene therapy. Even madsci.org has something to say about these noninvasive methods: "Gene therapy is one of the most interesting and valuable techniques to come out of the field of genetic engineering. The adenovirus used to deliver

the CF gene to human cells for gene therapy is known as a vector. Since most cells normally will not take in or absorb DNA, we need a delivery system to get the gene into the cell. Adenovirus is a good vector since it can infect cells in vivo, or while they're in the body, which means that the gene can be delivered through an inhaler (instead of having to manipulate the cells in vitro, or in the laboratory, then return the cells to the body). To use the adenovirus as a vector, it's genome was first altered by removing all the virus DNA except for the minimum necessary for the virus to live and infect the cells. Genetically engineered viral vectors like this are harmless and usually can't live outside of the laboratory. "But some virus vectors are not without drawbacks: All viral approaches suffer from the drawback of introducing unwanted viral genetic information into the recipient host. Retroviral vectors and adenoviruses have additional disadvantages. Retroviruses are only suitable for delivery of DNA to replicating cells, and present a risk of reversion to replication competent infective particles, whilst DNA expression using adenovirus delivery systems tends to be short lived [thus the need for the repeated chemtrail

spraying over the past two years in the same geographic areas and the use of a host of vectors to ensure success if one fails].” “A novel vector with potential for use in gene therapy has been developed by Professor Beverly Griffin and colleagues in the Department of Infectious Diseases at the Hammersmith Hospital Campus of Imperial College. Her team has shown that pseudocapsids of the mouse polyoma virus, consisting solely of the VP1 protein, can be used to transfer DNA into mammalian cells in vivo, to give expression at clinically relevant levels over a period of weeks.” This work and its subsequent implications suggests a reason for the dramatically increased investment by governments and industry alike over the past few decades into research at educational institutions of higher learning—now part of the expanded military-industrial-education complex. It also should make us all stop and remember the Hanta virus carried by the deer mice of the Four Corners region of the United States and its subsequent deadly effects over the past decade. “Polyoma virus has a very broad host range which means that the pseudocapsids will be taken up by essentially any human or other mammalian cell. Development and selection of mutant VP1 proteins, together with engineered specific labels may enable cell-specific targeting for in vivo applications. Pseudocapsids completely free of viral genetic material can be produced easily and economically.” In other words, the technology already exists for allowing virus vectors to effectively alter the DNA of a host’s cell. This is not science fiction. One company among many, AEA Technology, is presently researching and selling aerosol products for use in gene therapy. From the evidence available then, adenovirus vectors are the most likely culprits in chemtrail-related sicknesses, and in summary, both bacteria and viruses are capable of incorporating some of their own genetic information into the cells of a host. Bacteria do it via transduction and conjugation, and viruses via direct infection of a cell. Conceivably then, one could become infected with either such a bacteria or virus and would feel sick as a consequence. Meanwhile, the bacteria or virus goes to work altering one’s cellular DNA slowly, before later being wiped out by the body’s immune system. After the illness is eliminated, the altered cells remain and continue to reproduce. Sometimes it becomes malignantly cancerous if the gene transfer is crude and faulty (as in vaccinations), and other times the changes are so subtle the body continues to operate as previously, or so the victim thinks (as in chemtrail exposure). The easiest way to mutate our DNA is through a virus [in this case, the easiest way to un-mutate DNA or suppress it from mutating is also a virus. The chemtrails then are ultimately attacking our cellular DNA—it’s only possible explanation to head off the pending ascension process to keep us as a slave race to do the bidding of our masters. Mutation and its implications are therefore most relevant in explaining chemtrails. The X-Men movie is a good analogy for what is happening here on planet Earth at this very time. It has also been confirmed that DNA’s crystalline helical structure makes it very sensitive to low strength but specific magnetic frequencies and wave shapes. Depending on the field strength and Fourier components, the effects can vary from rejuvenation to cancer, with one possible effect being the unlocking or suppression of junk DNA. Since some of the “new” strands of DNA are actually electromagnetic or multi-dimensional in nature, DNA is also sensitive to not just earthly electromagnetic fields, but it also responds to the body’s soul-nature. Soul nature is the vibrational etheric/astral composition or signature of a particular soul. Genetic structure and soul-

nature are intimately coupled; a change in one can lead to a delayed change in the other. Manipulation or control of our earthly behavior can simply be garnered by the use of low-watt microwave transmissions, the effects to the cerebellum of the human brain when it is within three feet of such a device are devastating to the organ. FM, AM, and the microwave GWEN towers can all be used to manipulate or to control the unruly masses in this way. The author of some of this included material (the full text of which can be found at: <http://www.angelfire.com/mt/montalk/chemtrails.html>) gives as his conclusion the following: “Humanity is evolving, emerging from the past millennia of abysmal darkness and oppression. The power structure, knowing its reign is about to end, has worked tirelessly in a last

ditch effort to keep us suppressed. Chemtrails are but one small weapon they are employing to accomplish this.” A very true statement. His suggestion that “their ultimate goal is a New World Order, global totalitarianism and a reinstatement of their absolute power” and that “the NWO will fail if citizens become genetically empowered to wake up and fight with superhuman powers against tyranny” and that “this is already occurring, and the chemtrails are ultimately ineffectual at preventing the inevitable” is highly debatable, however. It is even incorrect in terms of what is truly going on. It is fairly obvious to anyone who tries to talk to the “man in the street” that firstly, they haven’t noticed this problem; secondly, that if they have noticed it they simply don’t seem to care about it; and thirdly, that if they have seen them and do seem to care, then they certainly do not feel they have any power to do anything about them, and so must just suffer. As I’ve said in

previous articles, despite what you read anywhere else, the general consciousness of planet Earth has decided NOT to go on with the ascension process – whether this be through coercion or through their own free will, does not really matter. There is now only the choice left to the individual whether he or she wants to take that next step for themselves, into a higher dimensional state. Two ‘anonymous’ emails sent to <http://www.surfingtheapocalypse.com/> seemed to come from someone in the know on the subject of chemtrails. These e-mails talk about the “culling” of the population. This is a word I, too, have been given in guidance as another aspect of the chemtrails. It is also a word used in these e-mails as being attributed to a four-star Admiral in the Office of Naval Intelligence. One of these e-mails has been titled ‘The Great Dying—The Real Reason Behind Chemtrails.’ It speaks of the overall scope and agenda behind Chemtrails (Operation Clover Leaf, Operation Red

Sky, Operation Rain Dance being the code names for these operations), and harkens back to what it calls the beginnings “way back in the late 1950s” with fluoridation, aspartame, and illegal street narcotics.” It also speaks of the fact that the agenda is “at the 80% completion point in these CT operations” (when the e-mails were written) with the final completion date to be “by March of 2001.” The e-mails list as the main and ancillary operational objectives of Chemtrails of Operation Red Sky to be: “Phase One main objective: Creative cleavages in spatial perceptions. Creating blockage in the brain of the interaction of various amino acids that relate to higher consciousness and the increase of dopamine in the brain producing a listless, euphoric state of lower, reactive mind. (Thereby trapping us in the third dimension—the choice of the lower plane energy as talked about in my previous article on Choice.) To understand this objective necessitates an understanding of

the human Soul, the spiritual Self and the connection between the two as related to the endocrine system functioning within each human host, and remembering what Dr. Fox said about our immune and endocrine systems showing the most evidence of these changes—these seeming to be the most important targets of the chemtrail's ingredients. The endocrine system is the group of specialized organs and body tissues that produce, store, and secrete chemical substances known as hormones. As the body's chemical messengers, hormones transfer information and instructions from one set of cells to another. Because of the hormones they produce, endocrine organs have a great deal of influence over the body. Among their many jobs are regulating the body's growth and development, controlling the function of various tissues, supporting pregnancy and other reproductive functions, and regulating metabolism. Endocrine organs are sometimes called ductless glands because they have no ducts connecting them to specific body parts. The hormones they secrete are released directly into the bloodstream. The primary glands comprising the endocrine system are the hypothalamus, pituitary, thyroid, parathyroid, adrenal, pineal body, and reproductive glands—the ovary and testis. The pancreas, an organ often associated with the digestive system, is also considered part of the endocrine system. The hypothalamus, found deep within the brain, directly controls the pituitary gland (also known to be the source of psychic vision or what spiritualists call “the third eye,” that which sees inter-dimensionally). It is sometimes described as the coordinator of the endocrine system. When information reaching the brain indicates that changes are needed somewhere in the body, nerve cells in the hypothalamus secrete body chemicals that either stimulate or suppress hormone secretions from the pituitary gland. Acting as liaison between the brain and the pituitary gland, the hypothalamus is the primary link between the endocrine and nervous systems (remembering that viruses commonly travel through the nervous system). If changes are to take place in the body, then this system is also the guardian over those changes as well as being the director of them genetically manipulate mankind through the ingredients in the chemtrails, one must first suppress the endocrine system, and second, the natural defenses of the immune system—the two most directly targeted areas of chemtrail spraying. The e-mails go on to say that the goals of the chemtrails are to make “the overall “frequency” of each of their charges (human beings in each country) to function at a specific rate below the threshold of awareness. The study of brain-wave, Remote Viewing techniques, and other related research holds the key to this. As we know, a physical brain functioning at 12 to 14 cycles per second is agitated and cannot, therefore, become perceptive of any cycle not within the same frequency, especially if that BRAIN IS ARTIFICIALLY stabilized to that frequency. How can one perceive love, when the brain can only register impatience, anger, etc?” FEAR is a key factor here, and it is through fear that we open ourselves up to control. Fear is the frequency which registers most with our fourth and fifth dimensional manipulators, and allows our auras, our protective shields, to be breached, leaving us open to their Light-sucking, energy-sucking control. The e-mails also say that “the immune system of the host must be depleted. This relates to control, simply put. If the slightest breeze makes you dizzy, what kind of defense can you be expected to put up if you can't lift your arms above your head without getting a headache? . . . This is the main reason for much of the desiccated red blood cells found in chemtrails: biowarfare. This

also allows the parasite to latch onto the human host with little resistance from the organism so attached.”

The third and last objective the e-mails point out are that the NWO needs our agreement. David Icke stresses this point in his work as well. The e-mails continue: “This last statement is by far the MOST CRUCIAL STAGE of all. It isn’t enough to make us slaves, we MUST WANT TO BECOME SLAVES. Food scarcity, low wages, false idealism as propagated via network commercials, all create a state of low-level dependency to a state system, but it is not enough. To win . . . (they) need our permission to do what they will to us (Universal Law). The system of this biosphere has one final gate that only each of us can open or close and it is, in fact, free will . . .” How and when will they do this? According to the e-mails “a fake alien invasion” or a biowarfare incident on a major U.S., European or Australian city could be used to trigger us to give up our free will in return for the safety and protection of a seemingly benevolent but in the end dictatorial force. With regard to this, be careful of ‘announced disclosures’ from seemingly reputable alien-seeking organizations. The control goes deeper than you suspect, and these organizations are needed to feed this supposed threat. As any good researcher or experiencer can tell you, they are already here—in more ways than you know. Preserve your free will. Make a choice for ascension rather than remaining. Utilize love in all your actions rather than dwelling in fear. Be an observer rather than a victim. And trust that there are THOSE who care about what is going on here, and will take care of things as long as you do your part. Have faith. I wish you strength. Peter Source List:

\*\*\*\*\* After a particularly long exposure the other day in one of the worst cities in the world for chemtrail spraying (Colorado Springs, Colorado --home of NORAD), I asked my Guidance if we could come up with a cure for the nagging coughing and sore throat that the chemtrails left me with. This primer and the resulting formula stems from that day. Preventative measures are always preferable to after-the-fact cures. The three things Guidance had recommended pretty much for all of us to include in our daily or weekly regimen to counteract most of the ill-effects of the chemtrails are still valid: 1. ‘Fresh’ Royal Jelly (or the small inexpensive phials of Chinese Bee Pollen and Royal Jelly) 2. Kamut <http://www.hort.purdue.edu/newcrop/proceedings1999/v4-182.html> Something I believe to do with the fact that it contains more lipids and fatty acids than regular wheat as well as being more easily digestible. 3. And any alkaline-balancing foods --particularly cabbage and such products as InnerLight Supergreens. I have seen a number of people whose health preoccupation is the acid-alkaline balance of the body but was more than impressed by the way they were able to fight off many of the health problems, alien energy forms etc which threaten most other people's health.

Subject: CHEMTRAILS ENVIRONMENTAL IMPACT OVERVIEW In this century, we believe we are witnessing the gradual, purposeful demise of the Earth's Natural System. There are those who will debunk/dis-info all that is written regarding the subject of this paper: ChemTrails. What's this? ChemTrails are only a vague description, in lay-terms, of a greater theater of toxic materials being released into the atmosphere/stratosphere, for a myriad of crude and toxic agendas. The author, Dr. R. Michael Castle, will attempt to put this Global debacle into a profile of events. Technical specificity of all the identified components would require at least a book in length, to recite them all. A short Bibliography follows, and links to various pertinent documents. First Rule of Understanding: There are very large, winner-take-all games orchestrated by the Global Interests of the World. We have investigated, researched and found substantial evidence of a multiplicity of Global operations designed to mitigate various and theoretical Global catastrophes, as defined by a late 1980's and 1990's International Panel of Conferees. (The value of who are they, what's the politics smell like and all that is not of the utmost importance in our attempt, herein, to describe what serious destruction they have caused and are causing to Humans and our Finite Environment. (Intergovernmental Panel on Climate Change : <http://www.ipcc.ch/>)1 Many of the operations we have collectively found in our investigations of this debacle have remained a secret, classified and not for general populace information or knowledge. You must answer the question, Dear Reader as to why someone would possibly deploy these Geo-weapons. Just follow the money trails. We will yield all of our voluminous data, information and all references we have used in our validation of facts surrounding this Global atrocity. The recipients of this information must be interested enough in what we are trying to expose, the Human-health risks, the Environmental risks and the plain, simple "wrongness" that prevails. We must determine first if you are provoked to really care, because the research and development of this information for a Major Media whistle-blowing expose will require passion and dedication. Our research work has spanned almost five years of...watching and discovering, with disgust, the scenarios which follow. This is not a small task.....but the Mission is simple. Expose and Stop the Methodic Demolition of our Natural Earth and its inhabitants. Executive Summary Dr. Edward Teller wrote a white paper in the late 1990's describing a remedial operation, strategy, epic-in-proportion, to change the predicted course of what was believed by an International group of Scientists, including Dr. Edward Teller, Livermore National Laboratories, et al, to be the cataclysmic certainty from the results of global-warming, crisis level Ultra-Violet/Cosmic radiation, crisis Ozone-layer depletion and other theoretical doom. (Edward Teller's "Sun Screen" Document - PDF: <http://www.rense.com/general18/scatteringEdTellerwithnotes.pdf>) 2 demonstrating here, that the same mind, Dr. Edward Teller, Father H-Bomb, was responsible for many illconceived strategies and not one gave considerations to the consequences in the Human realm. Safety, toxicity, lethality, exposure, Environmental Impact, morality, were not words with which Dr. Teller had a high-degree of familiarity. (WHO IS EDWARD TELLER?:

<http://tms.physics.lsa.umich.edu/214/other/news/042401HBomb.html>) 3 These Global-Warming Mitigation Strategies, UV Mitigation and the cessation of the effects of Atmospheric Greenhouse-gases were given a commonality by Teller, et al, and this was the use of a sub-micron particulate. Barium, Aluminum, Thorium, Selenium were to be processed into a sub-micron particle dispensed from high-altitude aircraft, ionized with a specific electrical charge. (BARIUM FLUORIDE OPTICAL CRYSTAL SAFETY DATA SHEET: <http://www.crystran.co.uk/baf2safe.htm>)4 (Chemtrails and Barium - absorption & inhalation .. see links below)(2003 Chemtrails over America (Scroll down to: RADIO FREQUENCY MISSION PLANNER): <http://lookupabove.tripod.com/chemtrailsoveramerica>) 5 We must surmise that ionization keeps the specific heavy metal particulate aloft for longer periods of time. This electronically charged particulate matrix might also be the perfect RF control field. Theoretically, the heavy metals would block and reflect the sunlight from entering the Earth's atmosphere and reflect 1-2% back into space. UV radiation levels would decline. Teller also recommended the use of Commercial Aircraft as-well-as-Military Aircraft to carry out the enormous and epic task of coverage to the Earth's Stratosphere. We believe that the weaponization use of these technologies has been well demonstrated for a US DOD program entitled "RF Dominance". The US Air Force VTRP and the Navy's RFMP are other military programs utilizing aerosolized heavy metal particulates, including aluminized fiberglass or chaffe are characteristic of current military operations. Weather as a Force Multiplier: Owning the Weather in 2025: <http://www.au.af.mil/au/2025/volume3/chap15/v3c15-1.htm#Disclaimer>) 6 CIA-led Project Cloverleaf was one of the initial "aerosolized heavy-metal particulate" operations. Massive spraying of the upper-atmosphere/Stratosphere commenced. The U.S. DOD operations soon followed, as the US Air Force became embedded in the overall operations, strategically. The U.S. Air Force would also play significantly into the expansion of a significant Global-Warming Mitigation strategies in the form of Weather Modification and Geo-Engineering practices. (AF2025 v3c15-1 | Weather as a Force Multiplier: Owning... | (Ch 1): <http://www.au.af.mil/au/2025/volume3/chap15/v3c15-1.htm>) 7 (Carnicom - Aerosol Operations: <http://www.carnicom.com/conright.htm>) 8 Federally Approved Contractors became involved in this massive, Global effort to save Earth from certain doom. Federal Approved Contractors, FAC's, were part of the research, Development and deployment aspects of these projects, and many of them have visited the premiere website (Stratospheric Welsbach seeding for reduction of global warming: US Patent: 5,003,186-Stratospheric Welsbach Seeding: 9 (See - Visitors) FAC Academia, multi-National Corporations, U.S. Military/Industrial Complex/Corporations, became eager partners in this effort. One in particular, Hughes Aircraft Corporation of California turned research efforts towards this endeavor. Thorium and oxides, Aluminum and Silicon carbide have been identified in a special mixture referred to generally as Welsbach Refractory Seeding Agents US Patent 5, 003,186. - March 26, 1991 (Aerosol Programs Patently Obvious: <http://users.ev1.net/~seektress/patlist.htm>) 10 This patent was assigned and awarded in 1990 to Hughes Aircraft Corporation. The Welsbach Refractory Seeding under unrestricted deployment operations began in the early 1990's over a vast area of Stratosphere above the North American Continent. (HAARP HOME PAGE:

<http://www.haarp.alaska.edu/haarp>)<sup>11</sup> Expanding over the entire western hemisphere, many operations were believed to have been enjoined in Ozone Depletion Mitigation Aerial operations of the US Air Force, connected to the HAARPs (High Frequency Active Aural Research Project) for Ionospheric Heating, located in Alaska ) Ozone Remediation was 1 of 3 active mission parameters for HAARPs, as defined by Dr. Bernard Eastlund, Inventor and Director of HAARPs. The Ionospheric Heating Research Facility was manned and operated by the US Air Force (Reserve) and the US Navy. HAARPs had been weaponized; therefore, all operations were and remain classified. (Correspondence with Dr. Bernard Eastlund: Space Based Weather Control: The Thunderstorm

Solar Power Satellite: <http://www.borderlands.com/spacewea.htm>)<sup>12</sup> (Program for Climate Model Diagnosis and Intercomparison: PCMDI Home Page: <http://www-pcmdi.llnl.gov/>)<sup>13</sup> Weather Modification/Climate Change HAARPs is utilized for many clandestine missions, of which Weather Modification is a fundamental objective. Microwave, ELF (Extreme Low Frequency), VLF (Very Low Frequency) and other EMR/EMF-based systems are transmitted into the atmosphere and reflected by the ionosphere, back through the Earth's Stratosphere/Atmosphere where various airborne chemical particulates, polymer filaments and other electromagnetic frequency absorbers and reflectors are used to push or pull the prevailing Jet-Streams, changing Weather patterns. (Note: Vast files of our research are available on the particulate, polymers, Microwave, ELF, VLF & EMG, etc) In many instances, Drought Inducement Technologies have been found in patented systems. Drought Inducement occurs, according to reviewed

technologies by heating the Stratosphere with Microwaves, placing airborne chemical particulates in the airspace and thereby changing the base-line moisture gradients via microwaves from HAARPs and desiccating chemically with Barium Titanates, Methyl Aluminum and Potassium mixtures. (Program for Climate Model Diagnosis and Intercomparison: PCMDI Home Page: <http://www-pcmdi.llnl.gov/>)<sup>13</sup> HAARPs punches massive holes in the open-air column Ozone, electronically. This is the basis for the Ozone Remediation/Mitigation Strategies found associated with HAARPs. However, "patching" the holes in the Ozone layer has become a standard practice for US Air Force and FAC flight operations. The US Air Force has recently, 2001-2002, resorted to the utilization of Unmanned Aerial Vehicles (UAV's) technology. High-flying Stratospheric Robotic Platforms negate the manned operation factors. Robots don't complain and never talk and remain, forever, non-union. Welsbach Seeding and Ozone Hole Remediation sciences utilize chemistries that are toxic to Humans and the Environment. Welsbach Refractory Agents use Aluminum, Thorium, Zirconium and other emissivityrefractive metals and metals oxides. Thorium is elementally, 98% purity. The remaining 2% are identified radioactive materials. Ground-fall includes Thorium. Mid and Eastern Canada are suffering from what has been clinically identified as Thorium poisoning. There are no other base-line resources for Thorium, all from residuals of aerosolized heavy metal particulate spraying into the Stratosphere. Alaska Flight 261 One other observation has been made regarding Welsbach refractory agents - the extreme abrasion characteristics of some of the other patented components, namely, Aluminum Oxide and Silicon Carbide. These materials are extremely high MOH's Hardness and only second in abrasivity to Diamond. These 1 micron and sub-micron dusts, upon

falling through the Atmosphere, could conceivably find deposition onto a somewhat, adhesive surface, inside the working flight components of all aircraft traveling through the "grit-plume". The greases used on the Horizontal and Vertical Stabilizers, Ailerons, Flaps and Landing Gear trucks may be seriously damaged with abrasion of metals on the aircraft. A horizontal-stabilizer Jack-Screw continuously coated with these highly abrasive dusts from the Welsbach Refractory materials will cause a gradual milling of the jack-screw metals and cause complete failure, jamming the flight controls into an uncontrollable down or up attitude configuration. We believe that Alaska Airlines Flight 261 was a victim of this unforeseen circumstance. Alaska Flight 261 made daily passage through heavy grit plumes from ChemTrails operations associated with Welsbach Refractory Seeding operations, principally along the West Coast of the US, down throughout Dallas, Texas. P> Other aircraft, Commercial and Military, Civilian have also suffered these flightcomponent failures and attributed them to sub-standard Aviation Machinist's quality. As did the NTSB (National Transportation Safety Board) in the Alaska Flight 261 aviation fatalities. These conclusions could not have been farther from the Truth in these matters. Collateral damage or just another consequence of ChemTrails? Ozone-Hole Remediation - The composition most notably utilized in Ozone-hole patching is elemental Selenium and an Aromatic Hydrocarbon such as Toluene (Benzene component of Gasoline) and mixed isomers of Xylene. Sprayed from Stratospheric flying Aircraft, films of this toxic mixture fall into the area just above the Troupopause, the Ozone Layer. Ozone or triatomic Oxygen forms rapidly upon the irradiation of the Selenium and the Hydrocarbon with Ultra-Violet/Actinic sunlight. This is the identical photon/chemical reaction that causes Ozone Alert Days and is problematic. The solid-state reaction of Selenium and Ultra-violet radiation is the same as the reaction that occurs during Xerography. Copy machines generate minute amounts of Ozone when the Selenium Toners are irradiated with UV light sources. The US/NASA TOMS (Total Ozone Mapping) Satellites have verified these Ozone Patching operations that occur principally over the northern sectors of the North American Continent. We have been studying these phenomena since the early 2000 time line. (TOMS -- Total Ozone Mapping Spectrometer: <http://toms.gsfc.nasa.gov/>)<sup>14</sup> Ground-fall Impacts of Selenium/Aromatic Hydrocarbons - The aromatic Hydrocarbon, when ground fall occurs, (there is substantial evidence that this has repeatedly occurred in the United States and Canada) is causative of Benzene over-exposure. Carcinogenicity of Benzene is known, not suspect. Surface water pollution with Benzene is a continuous threat. Selenium poisoning is characteristic of most heavy metals including Lead (Pb). Weather Modification - An integral part of the US Department of Energy's (US DOE) Global-Warming/UV Mitigation/Climate Change, Strategies. Led by the US Air Force, as a distinct Geo-Weapons method, Weather Modification is occurring on a Global basis. (AIR FORCE 2025 FINAL REPORT: <http://www.au.af.mil/au/2025>)<sup>15</sup> This Executive Summary will be confined to ChemTrails deployment in the United States and Canada due to the expansive nature of a global theatre. Professional independent investigators have retrieved numerous samples of soils and waters; these were analyzed and documented. Extensive testing has demonstrated the highly suspicious toxic levels of Barium and Methyl Aluminum in many areas of the United States and Canada that have no extraneous sources of these

heavy-metals. The sample retrieval areas have been documented for extreme ChemTrails observation. Accompanied by verbal and written complaints to many Public Health Care Agencies, causes for the elevated levels of Barium and Aluminum found in the bloodstream were not

forthcoming; just another clinical conundrum. (See Attachment - Chemtrails Pertinent Links) Conclusions - Although this summary is only a fraction of the overall ChemTrails debacle, we encourage impartial investigators and/or credible news journalists to assess this core information and either validate or refute our findings, thus far. The entirety of the Human Health suffering and the Environmental Impacts are staggering and too voluminous to write at this time. Other aerosol-related programs will be discussed at a follow-up session. Moreover, biological materials and genetically mutated fungi used as biocontrols may even be more damaging and egregious to Humans or the Environment than chemical-based aerosolized chemical materials sprayed into the atmosphere.

(RIZZO DM –Oak Tree Sudden Death

[http://www.plpnem.ucdavis.edu/plp/people/bio\\_info/Rizzo.htm](http://www.plpnem.ucdavis.edu/plp/people/bio_info/Rizzo.htm))<sup>16</sup> All of the chemical spraying operations have been conducted and deployed without public knowledge and not one Human

Health Risk Assessment nor Environmental Impact Study has been submitted for Public and Civil scrutiny or for comments. This alone is an egregious violation of Civil, Environmental and International Laws, with respect to Treaties. The Natural Earth's biological systems are slowly beginning to fail. Rhizobacteria endomycorrhizae, a critical microbial organism, is slowly becoming extinct in soils due to Barium and Aluminum heavy-metal toxicities. This microbe is responsible for the transfer of nutrients from soils-matrix to the plants/trees feeder-root system. The Barium/Aluminum heavy-metal salts are alkaline, i.e. Barium Hydroxide, and are shifting the base-line pH of surface soils and waters to new highs - elevated enough that certain plant species cannot survive.

According to our experts in this field, without this microbe, natural plant growth is impossible. The ChemTrails are spoiling our Infinite Natural Eco- System and no one is watching, albeit the evidence for

microbial extinction events abound. The events of the 1990's were characterized with phrases such as; "re-inventing" Commerce, Government, etc., are uniquely defined by the clandestine operations carried forth by the embedded personnel of US Agencies, in collaboration with International Alliances with subjects such as Weather Control, Food and Water Control and expansion of pharmaceuticals treating new diseases, all having direct linkage to what we have compressed into something that is called ChemTrails.

Does this story interest you in the least? We, a group of concerned individuals from around the World, numbering in the millions, are now extremely convinced that we are witnessing the methodic demise of the Natural Earth in the name of Commerce and Control, big Corporate and a hideous form of Socialism via the Military Industrial Complex. The technologies identified in ChemTrails are crude, poisonous and lethal. The bankrupt independent Farmer of the United States

and Canada never knew that the Drought that had-no-end and destroyed their businesses was actually contrived. Seems though, all their properties were purchased for pennies-on-the-dollar by either International Farming interests or International Grain- Farming interests and all that is grown and harvested on these farms are genetically mutated grains and foodstuff, most likely with a Monsanto Patented Product. These farms do not take

USDA Subsidies either. Well, that's good for the US Taxpayer, right? This is the emergence of the Food Weapon. Our ultimate mission is to develop Legislation for the United States Congress to pass that will halt, prohibit and forever abate the practices of deploying, dispensing or otherwise releasing any chemical into the Atmosphere/Stratosphere of the airspace above the entire North American Continent. Such a Draft Law has been written by the Author, R. M. Castle, entitled: The Unified Atmospheric Preservation Act of 2003 (UAPA3), has been reviewed by other ChemTrails Investigators and seems to be the only method of intervention to halt these insidious methodologies. However, the US Congressman we hoped would carry our cause, tends to back off when it becomes clear that the US Government is strategically involved in many aspects of the debacle. We are not asking for this legislation to be considered, we will demand its passage. Once in force, who will then become bankrupt? We will shut down the HAARPs Electromagnetic radiation machine with UAPA3. I would be very honored if anyone would like to receive a copy of the draft legislation UAPA3, for review and/or endorsement. Author - Dr. R.
