NOTES ON THE **OCTOBER 'PLAGUE'** – RELATED ISSUES

The story of **Daria Shipilova, researchers at the IRKUTSK ANTI-PLAGUE RESEARCH INSTITUTE, 28 years old**

- **She broke accidentally a test tube** on the 25th of September 2026 (acc. to local press, 'People of Baikal)
- **She was hospitalized on the 20th or 30th of September** with **pneumonia**
- **Passed away on the 2nd of October**, officially due to '**pneumonia of undetermined etiology'** (definitely not pneumonic plague); before that, reportedly, she was **intubated** (put on a ventilator)
- Officials affirmed she was **vaccinated against plague**
- **Mikhail Falorov**, infectious disease expert said she **contacted the plague**[1]
- Regional governor also suggested '**she possibly died of plague'**
- **Her mother, dr. Svetlana Shipilova** affirmed that **'she knows the truth', 'she has saved people like her, but they let her die', 'if we are in isolation, who will bury her?'**
- **OFFICIAL MEASURES in RUSSIA (though denial of pneumonic plague)**
    - **200 people (she was in contact with) have all immediately been isolated**
    - **5 hospitals, incl. a children hospital and a maternity in Irkutsk have been put in quarantine**
    - **A nearby Aluminum Plant in Irkutsk instituted mask wearing**

QUESTIONS ON THE PLAGUE HYPOTHESIS:

- Are not test tubes of **plastic**?
- Are the researchers not wearing **PPE**?
- If there was such an incident, **why have not immediate measures been instituted and she immediately hospitalized/ quarantined?**
- How the **expert** discovered that she contacted the plague? What made the **governor** affirmed possibility of plague caused demise?
- How could **a vaccinated person catch the plague**?
- If it was pneumonic plague, why **has she not been saved with antibiotics** (considering she presented to the hospital, as soon as to her known symptoms of plague occurred)?
- **who can confirmed her death** among her family (since they appeared to have been isolated)?
- **If not plague, why all measures**?

[1] **PNEUMONIC PLAGUE** (the only form of plague developing in pneumonia) is **lethal in 24-48 hours after the onset of symptoms if the specific antibiotic medication is not administered**; symptoms: **flu-like symptoms such as fever, headache, malaise, nausea, and vomiting, and progress to chest discomfort, productive cough with bloody sputum and difficulty in breathing**

    - **Immediately all local public events have been cancelled**
    - **Mid-October, about 2000 people have been quarantined in Russia (seemingly as a consequence of Daria's death)**
- **Russian population very skeptic**, in general, to anything coming from authorities (social media: ***"Yeah, they gonna find vaccine, which will be the one killing us***"), measures forcefully imposed
- **General situation in Russia very bad,** due to war, taxes, economic destruction, great human losses in the war with UKR (estimated by UKR and some analysts to be more than 1 million people), energy infrastructure attacked by UKR in the last 2 years (as it has been done to them also), public protests against the war, more than 70% of the people on the side of ending the war asap.
- **Russia has got an older ANTIPLAGUE VACCINE ,** which he shared with China & Mongolia (rejected by other countries) – **IV76, based on a live attenuated plague bacteria**
- **Russia participated in a joint anti-plague exercise w/ China just a few weeks before the event and the director of Irkutsh Anti-plague Institute participated in it and gave a presentation**

- **OFFICIAL MEASURES IN CHINA** (reported by LEI

    - **Official denials of plague outbreak in Russia, but INTENSE local preparations**: people encouraged to make **provisions of food and antibiotics** (a lockdown may be coming), more recently **people incentivized to report plague outbreaks** – 10,000 yuans) or plague symptoms – with them or others (**which are similar to other pulmonary infections incl. covid**)
    - In 2026, between May and September (4 months) , China organized **8 anti-plague pandemic exercices** [2](in previous years not having more than 1 or 2)
    - **Outbreak type quarantines and measures taken locally** in October (part. Testing, masks, antibiotics)

- **INTERNATIONALLY**
    - **Significant pandemic exercides:**
        - **WHO POLARIS 2 – dealing with an aerosolized bacteria taken over the world (26 countries, 600 health experts involved)**

[2] May 28 – Inner Mongolia (where in October surfaced rumours of plague outbreak and 70 people dead in a hospital) / historically they had the MANCHURIAN PLAGUE 1910-11 when reportedly 60,000 people died, mortality 100%
June 28 – a few Chinese provinces
July 26 (massive) 6 provinces incl. Beijing,Hubei & Inner Mongolia
August 7 – Tibet, Nepal near border with China
August 13 – Quinghan province
August 24-27 massive joint exercise in cooperation with Russia, more than 300 healthcare people participating
September 21-23 Sichuan province
September 23 - Quinghan province

        - **TOP OFF 2000 exercide in USA (in 3 Denver hospitals, related to a covert aerosolized plague bacteria release , contagious, spreading from person to person)**
    - **MSM speaking intensively about the possible outbreak of plague in Russia (as most probably a bioweapon release),** covered by the Russian state
    - **Notably, THE US INTELLIGENCE 2026 ANNUAL THREAT ASSESSMENT speaks about RUSSIA retaining 'the knowledge and capability to produce & employ traditional biological pathogens and toxins. However US HHS (RFK Jr) funded the cooperative research of Univ of Illinois Urban – Campaign with the Russian Institute if Citology & Genetics (which worked previously with the Irkutsk Anti-Plague Institute (in July 2025~390,000 $, Sep 2026 ~390,000 $)**
    - **In ALTERNATIVE MEDIA also, a lot spoken about PLAGUE as a bioweapon – ALEX Jones & Mike Adams, dr. John Campbell ('Weaponised Plague'), Dr. David Martin (changed subject hearing about RF radiation), Dr. Robert Malone (US Qualified Expert to UN Investigation of Alleged use of Chemical & Biochemical Weapons), Dr. Ryan Cole , Dr. Peter Mc Cullough & associate dr. Nicholas Hulscher - all, with the exc. Of Mike Adams, generally deniers of covid graphene nano injections and viral perspective promoters etc**
    - **General perspective of all these reports for now: DO NOT BE AFRAID – Is not an outbreak, but in case it is, we have therapies medical or alternative to deal with it**

DO NOT BE AFRAID, THEY SAY…. BUT WHOS' IN CONTROL?

The same leaders of the most powerful nation, who put their countries in lockdown and promoted the deadly jabs: **Putin, Xi, Trump.** All dealing with great turmoil building up in their countries against them. All three recently meeting up with each other. Leader of NATO is **Mark Rutte**, who also did the same in Netherlands, with great and brutal suppression of protests.

The same WHO director and Gates protégée, ex-Tigray Army leader, **Tedros Adenhom Gebreyesus**, and the same untouchable eminence, **Bill Gates** (that was recommended to **Epstein** by one of his friends in matters of 'how to kill the poor people")

    - **Dr. Nicholas Hulscher unveils the pipeline of many anti-plague vaccines some mRNA, DNA in the US, also many speak about the Israeli, Tel Aviv Institute anti-plague vaccine**

THE VIRAL & OCCULT COINCIDENCES

Author **Annie Jacobsen** published the book **BIOLOGICAL WAR. A Scenario** on July 28, 2026 (up to October, already became a best-seller and she was invited to speak on prominent platforms: Joe Rogan & others) – this is about a Russian Plague Bioweapon released from an institute in Siberia, that cannot be healed (she maintains this also about the actual supposedly real outbreak of plague)

The TAYLOR SWIFT song PATIENT ZERO [i]appeared on the 25th of September (date of alleged lab incident) & became no.1 in the US charts on the 2nd of Oct (day of Daria's alleged death) – 23 M views on YT in 3 weeks

19 March 2020 – 25 September 2026 = 6 yrs, 6 mths, 6 days

19 March 2020 – 2 October 2026 = 6 yrs, 6 mths, 13 days

19 March 2020 first covid death in Russia (also the first lockdown order for a US state: California)

WHY THE VIRAL CONSPIRACY THEORIES HELP MAY THEM

- Esp. 666 - messages need to REACH A CERTAIN TARGET
- I st to declare that THIS IS A SPECXIAL OPP (thus, an important part of the plan)
- II nd to ensure them that THINGS ARE UNDER CONTROL & THEY ARE SAFE (for the victims are targeted precisely and no matter how close they may be of the imnpacted area, they will not be affected –see Gavin Newsom's blue roof)

OBSERVATIONS & NEXT TO DISCUSS:

IMPORTANT SIMILARITIES BETWEEN HANTAVIRUS, EBOLA, PLAGUE & COVID

- MAIN SYMPTOMS COMMON WITH INFLUENZA (& some also w/ MICROWAVE SICKNESS)
- PNEUMONIC PLSGUE is almost indistinguishable from SEVRE COVID - incl. under X-RAY, CT scans
- All these diseases have first been confused w/ other diseases
    - HPS – suspected to be CHEMICAL, POISONONG/IRRADIATION
    - EBOLA – CONFUSED W/ malaria AND other hemorrhagic fevers (QUININE & ASPIRINE were administered, which causes internal hemorrhages)
    - PNEUMONIC PLAGUE (identified during the Manchurian Plague Outbreak) was intitially a mystery disease, internationally very much disputed – how this very suspiciously evolved, starting with the imbatable claims of Dr. Wu will be discussed
    - Fever – considered main symptom for all suspected cases & PCR TESTS remained the main DIAGNOSYS TEST
    - Quarantine and medical measures have been, in time, fiercely opposed by the population

But, as discussed w/ Google AI

HYBRID (POLYMERIC GRAPHENE) nanoparticles, WHEN INTRODUCED IN THE BODY, ACCUMULATE IN LIVER, KIDNEY, LUNGS (PULMONARY EDEMA), BLOOD VESSELS & CAN CAUSE HEMORRHAGES (esp.

when polymeric coating melts due to body's own enzymes or other factors we discussed:RF radiation, ultrasound, infrared, led light, high magnetism)

So using the background of INJECTED NANOPARTICLES & added energy waved + DEADLY PROTOCOLS – it is made sure that the KILLING IS TARGETED (and apparently, 'the elect' will be spared – which cannot be guaranteed in the case of using a real bioweapon, particularly aerosolized over cities and large areas)

A PROBLEM: HOW QUARANTINED PEOPLE CAN BE KILLED IN LESSS THAN 2 DAYS

- DEADLY PROTOCOLS (morphine & midazolam, ventilators, privation of food, hydration, poisoning via injectables/ mandatory vaccination, saline solution)
- Wifi, radars (now used in hospitals for severely ill patients – to monitor breathing, cardiac activity. movements)
- Withdrawing SPECIALIST fromQUARANTINE WARDS & using HEALTH PROFESSIONALS NOT QUALIFIED to deal w/ such diseases, eventually very young doctors or foreigners that would be easily convinced to simply apply the imposed protocols

[i] If you wanna party with somebody who might know
About the devil on his shoulder under his halo
And when the toxins take their hold, you'd rather die than let it go
But if you're sick of him, I got you, I was patient zero

[Outro]
So if you wanna kick it, then I'm with it, I've been there
Felt the reeling, done the healing, said the curses and prayers
When the fever turns a dreamer into a pathetic ghost
If he's killing you, I see you, I was patient zero
