“

THE COVID-19 OUTBREAK
IS THE FIRST BIG STEP
TOWARDS UNPRECEDENTED
CONTROL OVER MANKIND

KLAUS SCHWAB

FOUNDER & EXECUTIVE CHAIRMAN
WORLD ECONOMIC FORUM

Forget **Health & Nature**, it's all
about **GLOBAL & TOTAL**
CONTROL

COVID-19:
THE GREAT
RESET
China's Social Credit System
coming to the West soon if
we allow **Digital ID, CBDCs &**
Carbon Credit Scoring to be
rolled out !

Klaus Schwab: “History shows that epidemics have been the great resetter of countries’ economy and social fabric. Why should it be different with COVID-19?”

CBDC – Central Bank Digital Currency.

Once installed in the country, **all your money transactions** will be monitored and controlled directly by a foreign Central Bank cooperating with political authorities. Your money becomes unreliable; the bank controls them at any time, using for this your **DIGITAL IDENTITY**, which will comprise a **Social/ Carbon Credit Score**. This means your capacity to buy and sell will be depending not on your work and your finances, but on the special permissions the bank considers you deserve to have, according to your Social Credit Score. And not only this, but also other most basic things of life such as the rights to travel, to housing, to study, to a job, can and will be affected, as it has been unfortunately seen in China. In this new system, **freedom and democracy are indeed a thing of the past.**

Consider also that any **cyber attack** (as predicted by the World Economic Forum), any **damage to the power grid** (via EMP, terrorism, sabotage) may lead to the **permanent deletion of bank accounts**, leaving all people at the mercy of the authorities (who will solve this by the planned introduction of a conditional and surely miserable **Universal Basic Income**).

DIGITAL IDENTITY - SOCIAL CREDIT SCORE/ CARBON CREDIT SCORE

unitefortruth.online/digitalid

Digital ID is a centralized government-controlled database containing all previously separated data about each resident. This can easily lead (as in China) to the implementation of a **Social/ Carbon Credit Score**, a system promoting or demoting the social rights of every person in function of a top-down set of criteria such as healthy eating and life habits (vaccination incl.), political compliance, energy consumption (net zero) etc.

ZONE CONTROLS & 15 minutes SMART

CITIES/TOWNS (LTNs – Low Traffic Neighbourhoods / CAZ’s - Clean Air Zones / ULEZ – Ultra Low Emission Zone)

No matter how appealing they are presented, all these absurd measures will unavoidably lead to **destruction of business, shops, livelihoods and a gradual elimination of personal vehicle use, free movement and association of people**, forcing people into a deplorable dependency on the state’s provisions, which may soon come again at the price of many, if not all individual freedoms. Fortunately, by now (April 2023) **11 councils in England, supported by the residents, have opposed ULEZ extensions.**

However, if your council wants ‘liveable towns’ and ‘clean air’, ask them why are they still **spraying poisonous GLYPHOSATE** unitefortruth.online/glyphosate that destroys the grass and the trees, kills the wildlife, damages pets and children, pollutes the soil, air and water, why are they **savagely cutting the vegetation**, while all this time pretending to be ‘green’ and fighting to save the planet and protect the environment. There’s no better, risk-free method to capture Co2 than by the increase of vegetable mass which naturally absorbs it. If your Council wants people to have a ‘healthier life’, ask them why have they approved the **installation of 4G/5G towers very close to buildings, schools, medical centers, retail parks etc, as also the upgrade of wifi in schools** in the absence of any health and safety assessments. EMF Microwave radiation has also been proven to affect negatively bees, birds, mammals and humans proportional to the increase in power and frequency and according to WHO is a possible carcinogen.

Please observe all recent modification in the profile of your town, as also your Council’s **Climate Action Plans** – they may, in fact, create more limitations, surveillance and deprivation for the population, turning our society into an authoritarian nightmare.
